DEFINITIONS

Access Line

The circuit which travels from the central office to the subscriber's premise protector which provides direct access to the local exchange and the toll switching networks.

Analog Signal

An electrical signal that varies in either amplitude or frequency in a continuous manner, in imitation of (analogous to) a primary signal, such as voice.

Channel

The electrical path provided by the Telephone Company between two or more locations. Connection for the Carrier's switch or point of connection to the Serving Wire Center.

Channel Performance

Improved performance achieved by adding conditioning to extend signaling on a two-wire analog channel when the Serving Wire Center is not the Dial Tone Office.

Circuit

A Channel used for the transmission of electrical energy in the furnishing of telephone service.

Connecting Company

A corporation, association, partnership, or individual owning or operating one or more exchanges and with whom traffic is interchanged.

Connectivity

The ability of the equipment at the Dial Tone Office to connect the channel to the Telephone Company's switch.

Contract

The service agreement between a subscriber and the Telephone Company under which services and facilities are furnished in accordance with the provisions of the Tariffs applicable.

Customer Provided Equipment (CPE)

Devices, apparatus and their associated wiring provided by a subscriber for use with facilities furnished by the Telephone Company.

Issued Date: December 5, 2016

Effective Date: December 2, 2016

Issued by: Michelle Owens
Fremont Telcom Co. dba Blackfoot
1221 N. Russell Street
Missoula, MT 59808

Advice Letter: ID-16-01

DEFINITIONS, (Cont'd)

Dedicated Transport

When the Serving Wire Center is not the Dial Tone Office or Tandem Office, Dedicated Transport is the transmission path for the switched traffic between the two offices.

Dial Tone Office

The Telephone Company central office in which the numbers assigned to the Carriers are housed which may be different than the Serving Wire Center.

Direct Dialing

The capability for a subscriber to dial anywhere in the United States with a series of numbers without operator assistance.

Exchange Area

The territory served by an Exchange.

Extension and P.B.X. Station Mileage

The charges made for the additional circuit required to furnish such stations beyond the existing distance from the main station or P.B.X. switchboard.

Extension Station

An additional station connected on the same circuit as the main station and having the same telephone number as the main station.

Extra Listing

Any listing of a name or information in connection with a subscriber's telephone number beyond that to which he is entitled in connection with his regular service.

Foreign Exchange Directory Listing

An alphabetical and directory listing in the directory of an exchange other than the exchange in which a subscriber is furnished local service.

Issued Date: December 5, 2016

Effective Date: December 2, 2016

Issued by: Michelle Owens
Fremont Telcom Co. dba Blackfoot
1221 N. Russell Street
Missoula, MT 59808

Advice Letter: ID-16-01

DEFINITIONS, (Cont'd)

Individual Line

An exchange line designed for the connection of only one access line.

Installation Charge

A non-recurring charge made for the placing or furnishing of telephone equipment, which may apply in place of or in addition to Service Connection Charges and other applicable charges for service or equipment.

Key System

An arrangement of key-equipped instruments capable of providing intercommunication and multi-trunk communication with the general exchange and interexchange network.

Local Channel

That portion of a channel which connects a station to the interexchange channel; it also applies to a channel connecting two or more stations within an exchange area.

Local Exchange Service

Telephone service furnished between subscriber's stations located within the same local service area.

Local Message

A communication between subscribers' stations within a toll free area.

Local Service Area

That geographical area throughout which a subscriber obtains telephone service without the payment of a toll charge.

Main Station

A suitable telephone instrument or station which is connected to a network access line through a central office and has a unique telephone number.

Mobile Unit Number

The number assigned by the Carrier to its patron's wireless message receiving and/or sending device. This may either be a telephone number or another number used only by the carrier's network.

Number Activation

The act of translating telephone numbers in the Dial Tone Office to allow routing to the appropriate trunk group.

Issued Date: December 5, 2016

Effective Date: December 2, 2016

Issued by: Michelle Owens
Fremont Telcom Co. dba Blackfoot
1221 N. Russell Street
Missoula, MT 59808

Advice Letter: ID-16-01

DEFINITIONS, (Cont'd)

Number Reservation

The assigning of sequential numbers without activation of the assigned numbers.

NXX

The three digit prefix (to a standard seven digit local telephone number) of 10,000 telephone numbers within a given area code (NPA) of the North American Numbering Plan.

Party Line

A central office line designed for the connection of more than one network access line.

Point(S) of Connection (POC)

The connection point(s) between the Carrier and the Telephone Company; the technical interface(s), test point(s) and point(s) for operational division of responsibility.

Premises

All of the building or the adjoining portions of a building occupied and used by the subscriber; or all of the buildings occupied and used by the subscriber as a place of business or residence, which are located on a continuous plot of ground not intersected by a public highway or thoroughfare.

Primary Station

Synonymous with Main Station.

Private Branch Exchange (PBX)

An arrangement of equipment used by a subscriber and connected directly to a central office by means of trunk access lines, from which connection is made to stations at various locations or customer premises, thereby providing telecommunications between these stations and also communication with the general exchange system.

Private Line

A circuit provided to furnish communication only between the two or more telephones directly connected to it, and not having connection with either central office or PBX switching apparatus.

Public Telephone

An exchange station, either attended or equipped with a coin-collecting device which is installed for the convenience of the public at a location chosen or accepted by the Telephone Company and is owned by the Telephone Company.

Advice Letter: ID-16-01

FREMONT TELCOM CO.
I.P.U.C. No. 1
Original Sheet No. 12

DEFINITIONS, (Cont'd)

Semi-Public Telephone

A Semi-Public Telephone is an exchange station owned by the Telephone Company and equipped with a coin collecting device, designed for a combination of subscriber and public usage at locations more or less public in character. Semi-public telephone service is considered a form of subscriber service.

Serving Wire Center

The term "Serving Wire Center" denotes the Telephone Company central office from which dial tone for local exchange service would normally be provided to the customer's premises.

Subscriber

A person or agency subscribing for telephone service. As used in this Tariff, a separate subscriber is involved at each location, or continuous property, where service is furnished. One individual or firm therefore may be considered as two or more separate subscribers, even in the same Exchange. The privileges, restrictions, and rates established for a subscriber to any class of service are limited to the service at one location; and no group treatment of service at separate locations furnished to one individual or firm, is contemplated or to be implied, except when definitely provided for in the schedules.

Tariff

The document filed by the Telephone Company with the Public Utilities Commission which lists the communication services offered by the Telephone Company and the associated rates and charges.

Telephone Station

A suitable telephone instrument, consisting of a transmitter, receiver, and associated apparatus, so connected as to permit transmitting of and receiving telephone messages.

Tie Trunk

A circuit connecting two PBX systems for the purpose of intercommunicating between the stations connected with such PBX switching apparatus. The circuit is not intended to provide for general exchange service through either of the PBX systems with which it connects.

Toll Message

A message from a calling station to a station located in a different local service area and for which there is a charge.

Toll Service

Telephone service rendered by the Company or interexchange carrier between patrons in different local service areas in accordance with the rates of the toll carrier.

Trunk

A telephone communication channel between (a) two ranks of switching equipment in the same central office, (b) between central office units in the same switching center, or (c) between two switching centers.

GENERAL RULES AND REGULATIONS

A. APPLICATION

The rules and regulations specified herein apply to the intrastate services and facilities of Fremont Telcom, hereinafter referred to as the Company. Failure on the part of the subscribers to observe these rules and regulations of the Company, after due notice of such failure, automatically gives the Company the authority to discontinue the furnishing of service.

In the event of a conflict between any rate, rule, regulation or provision contained in these General Rules and Regulations and any rate, rule, regulation or provision contained in the specified tariffs, the rate, rule, regulations or provision contained in the specific tariffs shall prevail.

These tariffs cancel and supersede all other tariffs of the Company issued and effective prior to the effective date of these tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (M) Signifies material moved from or to another part of the Tariff with no change, unless there is another symbol present.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rates.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

GENERAL RULES AND REGULATIONS (Cont'd)

C. OBLIGATION OF COMPANY

1. Availability of Facilities

The Company's obligation to furnish telephone service is dependent upon its ability to secure suitable facilities and to provide such service without unreasonable expense.

2. Interruption of Service

An allowance will be made upon notice and demand to the Company for interruption of service not due to subscriber negligence.

The company will credit a customer's account by an amount equal to the monthly rate for one month of basic exchange service (Network Access Line Service), if the customer reports an out-of-service condition which has deteriorated service to the extent that the customer cannot make local calls or cannot receive local calls or cannot use the service for voice-grade communications because of cross talk, static, or other transmission problems, and service is not restored (1) within sixteen hours after the report of the outage if the customer notifies the Utility that the service outage creates an emergency for the customer or (2) within twenty-four hours after the report of the outage if no emergency exists, except that outages reported between noon on Saturday and 6:00 p.m. on the following Sunday must be restored within forty-eight hours or by 6:00 p.m. on the following Monday, whichever is sooner.

The credit will not apply to "out-of-service" conditions resulting from the willful neglect misuse or abuse by the customer. The credit will not apply to "out-of-service conditions where the outage is in the customer's inside wire or customer's premises equipment. This credit will not apply to "out-of-service" conditions resulting from natural disasters, or circumstances beyond control and knowledge of the utility. This credit also will not apply to "out-of-service" conditions where service has been temporarily or permanently discontinued for nonpayment of bills.

3. Directory Errors and Omission

The Company endeavors to correctly list customers, their telephone numbers and other information in the local telephone directory. The Company will waive the tariff rate for special directory services in cases in which the company is responsible for directory listing errors.

Advice Letter: ID-16-01

GENERAL RULES AND REGULATIONS (Cont'd)

C. OBLIGATION OF COMPANY (Cont'd)

4. Transmitting Messages

The Company does not transmit messages. If, because of transmission difficulties, the operator repeats messages between subscribers, the operator is deemed acting as an agent of the subscriber.

5. Use of Connecting Company Lines

Lines of other connecting companies may be use to reach points outside the Company area when suitable arrangements can be made.

6. Defacement of Premises

The Company will repair or replace any defacement or damage of property due to installation, existence, or removal of Company property, when the damage is the result of negligence of the Company.

7. Adjustment of Charges

In case of overbilling, a refund will be made by the Company for the full amount of excess charges when the amount can be determined; when the amount cannot be determined from available records, the maximum refund will not exceed the estimated overbilling over a three year period.

In case of under billing, the company reserves the right to backbill for the deficiency charges up to a period of three years.

GENERAL RULES AND REGULATIONS (Cont'd)

D. USE OF SERVICE AND FACILITIES

1. Ownership and Use of Equipment

All equipment and lines furnished by the Company are the property of the Company even though located on the subscriber's premises. Company agents or employees shall have the right to enter said premises at any reasonable hour to install or maintain equipment, make collections, or remove equipment.

The Company may refuse to install or maintain any service at locations which are hazardous to Company employees. If such service is furnished, the subscriber may be required to install and maintain such service, holding the Company harmless from any claims for damage by reason of the installation and maintenance of this service.

2. Interconnection Policy

Subscriber-provided terminal equipment may be used and subscriber-provided communication systems may be connected with the facilities furnished by the Company for telecommunications services subject to regulations outlined in other parts of this tariff. In case any unauthorized attachment is made, the Company shall have the right to disconnect, suspend, or terminate the service.

3. Use of Subscriber Service

Subscriber telephone service is furnished only for the use by the subscriber, his family, and associates or resale. Any services provided with the intention of resale must be negotiated with the Company. The Company may refuse to install or permit such service to remain on premises of public or semi-public character.

The equipment may be installed, at such locations provided the service is located so it is not accessible for public use.

4. Tampering with Equipment

The Company may refuse to furnish telephone service when company equipment shows any evidence of tampering for the purpose of obtaining service without payment of charges applicable to the service rendered by the Company.

5. Use of Improper Language or Impersonation of Another

The Company may refuse service to anyone who uses or permits abusive or obscene language over Company facilities or impersonates another individual with fraudulent or malicious intent.

GENERAL RULES AND REGULATIONS (Cont'd)

USE OF SERVICE AND FACILITIES (Cont'd)

6. Governmental Objections to Service

The Company may refuse service or discontinue service to anyone upon objection to such service by or behalf of any governmental authority.

7. Indiscriminate Use of Facilities

The Company may refuse to furnish service or require upgrading of services provided to any subscriber who allows indiscriminate use of Company facilities, except in case of emergencies.

GENERAL RULES AND REGULATIONS (Cont'd)

E. ESTABLISHMENT AND FURNISHING OF SERVICE

1. Application for Service

Application for service must be made on the Company's standard form, which becomes a contract when accepted in writing by the Company or upon establishment of service. The subscriber may be required to pay in advance all charges for the first billing period and connection charge if applicable. The conditions of such contracts are subject to all provisions of this and other applicable tariffs. Requests for additional service may be made verbally, if provided in the original contract, and no advance payment will be required. A move within the exchange area is not considered to terminate the contract and orders for such may be made verbally.

2. Telephone Numbers

The Company may change any or all numbers whenever it deems it necessary in prudently conducting its business. See assigning and changing of telephone numbers section of this tariff for fees associated with changing telephone numbers.

3. Alterations

The subscriber agrees to notify the Company of any alterations which will necessitate changes in the Company's wiring; and the subscriber agrees to pay the Company current charges for such changes.

4. Payment of Service

The subscriber is required to pay all charges for services rendered by the Company, both exchange and toll in accordance with provisions contained elsewhere in this tariff. The subscriber is responsible for all charges for service rendered at his telephone including collect charges.

5. Maintenance and Repairs

The Company shall bear the expense of all repair and maintenance of its facilities except where damage or destruction of its facilities is due to the gross neglect of the subscriber. The subscriber may not rearrange, remove, or disconnect any Company facilities without consent of the Company.

6. Line Extensions

Lines will be extended to permanent customers in accordance with the guidelines established in the Construction Charge section.

Where required by the conditions, applicants may be required to provide to the Company suitable private right-of-way parallel to the public highway.

GENERAL RULES AND REGULATIONS (Cont'd)

E. ESTABLISHED AND FURNISHING OF SERVICE (Cont'd)

7. Unusual Installation Costs

When special conditions or special requirements of the subscriber involve unusual construction or installation costs, the subscriber may be required to pay a reasonably proportionate share of such cost. Title to all facilities constructed and paid for wholly or in part by the subscriber is vested in the Company.

Issued Date: December 5, 2016

Effective Date: December 2, 2016

Issued by: Michelle Owens
Fremont Telcom Co. dba Blackfoot
1221 N. Russell Street
Missoula, MT 59808

Advice Letter: ID-16-01

GENERAL RULES AND REGULATIONS (Cont'd)

F. TELEPHONE DIRECTORIES

The Company will furnish to its subscribers, without charge, only such directories as it deems necessary for the efficient use of the service. Other directories will be furnished at the discretion of the Company at a reasonable charge.

G. ESTABLISHMENT AND MAINTENANCE OF CREDIT

1. Deposits

The Company adopts by reference the Rules and Regulations for all Telephone Companies Under the Jurisdictions of the Idaho Public Utilities Commission promulgated in I.D.A.P.A. 31.42. 01 by the Idaho Public Utilities Commission and all amendments to those rules which may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

2. Interest to be Paid on Deposits

Simple interest, at the rate provided by the Idaho Public Utility Commission, shall accrue from the date of deposit until the date of refund or application to the customer telephone bill.

3. Reconnection Charge

Where service has been terminated by the company in accordance with IPUC Rules and Regulations, the regular non-recurring charges shall apply for reconnection of service.

4. Issuance of Credit Cards

Credit cards will be issued only to those persons living within and around the Company's service area. Issuance of a credit card will require the establishment of credit as outlined in the Rules and Regulations For All Telephone Companies Under the Jurisdiction of the Idaho Public Utilities Commission.

Issued Date: December 5, 2016

Fremont Telcom Co. dba Blackfoot
1221 N. Russell Street
Missoula, MT 59808

Advice Letter: ID-16-01

GENERAL RULES AND REGULATIONS (Cont'd)

MINIMUM CONTRACT PERIODS AND TERMINATIONS OF SERVICE

1. Minimum Contract Periods

Except as hereinafter provided, the minimum contract period for all services and facilities is one month at the same location.

The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is first distributed to the subscribers to the day the succeeding directory is first distributed to subscribers.

The Company may require a minimum contract period longer than one month at the same location in connection with special (non-standard) types or arrangements of equipment, or for unusual construction necessary to meet special demands, and involving extra cost.

2. Termination of Service - Subscriber's Request

Service may be terminated prior to the expiration of the minimum contract period upon notice being given to the Company, and upon payment of any applicable termination charges in addition to any applicable charges due for service which has been furnished.

In the case of service for which the minimum contract period is one month, termination will require that charges due for the balance of the minimum period be paid.

In the case of directory listings where the listing has appeared in the directory or where a non-listed or non-published listing has been properly omitted, the charges are due to the end of the directory period, except that in the following cases charges will be continued only to the date of the termination of the extra listing or proper omission with a minimum charge of one month.

- (1) The Contract for the main service is terminated.
- (2) The listed party becomes a subscriber to some other class of exchange service.
- (3) The listed party moves to a new location.
- (4) The listed party dies.

For special equipment, the charges will be based on the individual circumstances in each case as agreed upon at the time of installation.

Contracts for periods longer than one month covering services whose installation required line extensions may be terminated upon payment of all charges that would accrue to the end of the contract period, or the contract will be transferred to a new applicant who is to occupy the same premises and will subscribe to the service effective on the day following termination by the original subscriber.

GENERAL RULES AND REGULATIONS (Cont'd)

H. MINIMUM CONTRACT PERIODS AND TERMINATION OF SERVICE (Cont')

2. Termination of Service - Subscriber's Request (Cont'd)

Service may be terminated after the expiration of the initial contract period, upon the Company being notified, and upon payment of all charges due to the date of termination of the service.

3. Termination of Service By The Company

The Company adopts by reference the Rules and Regulations for All Telephone Companies Under the Jurisdiction of the Idaho Public Utilities Commission promulgated in I.D. A. 31.42. 01 by the Idaho Public Utilities Commission and all amendments to those rules which may be hereafter adopted by the Idaho Public Utilities Commission. Copies of these Rules and Regulations are on file in the business office and are available for public inspection.

I. PAYMENT FOR SERVICE AND FACILITIES

The subscriber shall pay for service and facilities monthly in advance, except all various units of government, and shall pay for Toll Messages (including charges for messenger service), and Moves and Changes when billed. Failure to receive a bill does not relieve the subscriber of the responsibility for payment in accordance with the provisions set forth herein. All bills for service are due and payable at the office of the Company on or before the fifteenth day following the post marked date of the statement of the month in which the bill is rendered. The subscriber has the option of choosing automatic payment, a service which automatically debits the subscriber's bank account for monthly services. A monthly fee, as determined by the Company will be assessed for this service. The subscriber is required to complete appropriate forms as required by the Company, to initiate this service.

J. SPECIAL SERVICES AND FACILITIES

Special services and facilities not ordinarily used in the furnishing of telephone service and not otherwise provided for by the tariff schedules of the Company may be furnished or leased pursuant to special contract for such special service or facility for such period as may be agreed upon, provided such special service or facility or the use made thereof is not unlawful and does not interfere with the telephone service furnished by the Company. Special services are provided for each individual application as a custom-engineered system to satisfy and provide for the needs of that customer. Applicable charges will be determined by the revenue requirements of the utility for each individual system. In the event any such special service or facility or the use made thereof interferes with the furnishing of the telephone service by the Company, the Company may terminate such contract and cease to furnish such special service or facility after thirty days written notice to the subscriber; and provided further that the commission may terminate such contract whenever, in its opinion, public interest requires such termination.

NETWORK ACCESS LINE SERVICE (Cont'd)

CONDITIONS – (Cont'd)

Additional instruments may be attached to network access lines. The Company reserves the right to limit the number of instruments connected to an access line if they cause interference with the normal operation of the line.

Touch Tone service is provided only where the facilities are available.

Business Rates Apply:

At any location where activities are of a business, trade, or professional nature.

At any location where the listing of service at that location indicates a business, trade, or profession.

Where only one network access line is provided at a location which is both a residence and a business.

At schools, hospitals, libraries, churches, and other similar institutions.

FLAT RATE
NETWORK ACCESS LINE SERVICE (Cont'd)

CONDITIONS – (Cont'd)

Business Access Line – Volume and Term Discounts:

1. Business Service customers that commit to certain volume (access lines) amounts and length of service (term) periods will be provided a discount on the normal monthly local exchange access line rates, as contained Sheet 30 of this Tariff, according to the table below.
2. The discounts offered pursuant to this Section will be applicable to all Business Flat Rate Service and PABX customers in all rate groups.
3. The feature packs listed in Part 5 below can only be used in conjunction with Business Access Lines purchased pursuant to this Section.
4. Rates – The following discounts are stated in terms of the percentage reduction in the normal monthly local exchange access line rates.

<u>Volume</u>	<u>1 yr Term</u>	<u>2 yr Term</u>	<u>3 yr Term</u>	<u>5 yr Term</u>
1-3 lines	5%	10%	15%	20%
4-10 Lines	7%	12%	17%	22%
11-25 Lines	9%	14%	19%	24%
26-49 lines	11%	16%	21%	26%
50-74 Lines	13%	18%	23%	28%
75-99 Lines	15%	20%	25%	30%
100-199 Lines	17%	22%	27%	32%
200-299 Lines	19%	24%	29%	34%

5. The following Feature Packs can be added to any and all access lines in the volume/term discount plan:
 - a) Feature Pack A - \$12.50 per month per line
 - Includes Call Forwarding, Calling Name/Number Identification, Three Way Calling, and Voice Mail-Basic*.
6. All rules, regulations, fees and surcharges normally applicable to the discounted Business Services apply. Local and state additional charges, taxes, surcharges and other charges are not discounted under this section.
7. Termination Charges may be applicable to customers terminating eligible Business Services provided under this section prior to the expiration of the service term. Such charges will be in an amount not to exceed the monthly recurring charge for the services for the months remaining on the original or renewal term.

* Denotes non-regulated service

3. REGULATIONS

- a. The Federal End User Common Line charge and all other applicable surcharges and taxes will be billed separately from the bundled services.
- b. All services or features selected in the package can only be provided where technically available and compatible with other features the customer may choose to order.
- c. Caller ID requires compatible display unit.
- d. The bundled rate will appear as a single line item on the customer's bill.
- e. Residence Bundled Services that have the unlimited long distance cannot be used to conduct business or used for internet dial up. If it is determined that the bundle's use is nonresidential in nature or used for internet dial up, the customer will be notified and the bundle will be discontinued.
- f. Service Connection Charges apply if the customer switches from a bundle to an unbundled service.
- g. Service Connection Charges do not apply if the customer switches to another bundle of greater value.
- h. Additional discounts are offered if a customer has a 12 month term commitment.

- f. Long distance calling includes calling to anywhere within the United States, U.S. Territories and Canada.
- g. Not all features may be available in all areas.
- h. Voice Advantage Bundles are available only in areas specifically equipped to provide such service and are subject to the availability and technical limitations of facilities.
- i. Rates do not include Federal Subscriber Line Charges, Universal Service Charges, fees, taxes, and other surcharges
- j. Voice Advantage Bundle customers may terminate the package or switch to another calling package or plan at any time.
- k. The Voice Advantage Bundles are offered only to residential customers for the customer's personal, residential, non-business and non-professional use. Use of the Voice Advantage Bundle is prohibited for any profit or nonprofit commercial or governmental activities, including, but not limited to, activities related to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, resale or transfer of the Voice Advantage Bundle or any other activity that would be inconsistent with the normal residential voice-grade applications and usage patterns. If it is determined that the usage on the Voice Advantage Bundle is not consistent with residential applications or is otherwise prohibited as specified in this tariff, Blackfoot Communications, Inc. d.b.a. Blackfoot will contact the customer and arrange a transfer to a business service or terminate service under the residential Voice Advantage Bundle. Additional restrictions may apply as provided elsewhere in the tariff.
- l. Customers enrolled in the Voice Advantage Bundles, who fail to pay the entire bundle rate due per month, will have all existing Voice Advantage Bundles converted to the applicable tariff rates for the individual services included in their bundle. Service charges will not apply for converting services back to their individual tariff rates. Such customers will not be permitted to re-enroll in the Voice Advantage Bundle until such time as all associated unpaid balances have been paid in full.
- m. Voice Advantage Bundle customers have the option of subscribing to Voice Mail* and Internet* products at discounted rates.

* Service not regulated under this tariff

BUNDLED SERVICE OFFERINGS

C. EXPANSIONPAK II (EPAK II) BUNDLES (Cont'd)

2. DESCRIPTION

A. General

1. ExpansionPAK II is an Unlimited Dial Tone Line (DTL) Basic Package or an Unlimited Centrex Basic Package (as described below) along with a specified non-regulated service, if selected, and offered for a one or two year term commitment. The Unlimited Dial Tone Line (DTL) Basic Package and Unlimited Centrex Basic Package are optional business flat rated usage packages comprised of a network access line with unlimited local calling, unlimited instate long distance, unlimited domestic long distance and a choice of certain features. Customers must purchase at least one (1) Expansion Line for the Unlimited Centrex Basic Package. Expansion Lines are offered on a monthly, one or two year basis per each additional line ordered.

B. Packages

1. Unlimited Dial Tone Line (DTL) Basic Package includes one (1) Business Exchange Service Line with unlimited local calling, unlimited instate long distance, unlimited domestic long distance* (See C.3.E below) and a choice of one to eleven (1-11) of the following features where available:
 - Call Waiting , Three-Way Calling, Call Forwarding, Call Forwarding Fixed Busy/No Answer Service, a choice of one business Caller ID service, Anonymous Call Rejection, Speed Calling - 8 Numbers, Distinctive Ringing Service, Automatic Redial (*66), Automatic Call Return (*69) and Line Hunting Service
- a. Unlimited Dial Tone Line (DTL) Expansion Lines

Expansion Lines are optional and are NOT required with each Unlimited Dial Tone Line (DTL) Basic Package.

Call Waiting , Three-Way Calling, Call Forwarding, Call Forwarding Fixed Busy/No Answer Service, a choice of one business Caller ID service, Anonymous Call Rejection, Speed Calling - 8 Numbers, Distinctive Ringing Service, Automatic Redial (*66), Automatic Call Return (*69) and Line Hunting Service

* Denotes non-regulated service

2. DESCRIPTION (Cont'd)

B. Packages (Cont'd)

2. Unlimited Centrex Basic Package includes one (1) Centrex Line with one business Caller ID Service, Call Return, unlimited local calling, unlimited instate long distance, unlimited domestic long distance* (See C.3.E below), as well as standard features to Centrex Service as specified on Sheets 61-70 of this Tariff.
- a. Unlimited Centrex Expansion Lines

At least (1) Centrex Expansion line is required with each Unlimited Centrex Basic Package.

Centrex Expansion Lines with Unlimited Calling are available on a month-to-month basis or a one or two year term agreement per line with unlimited local calling, unlimited instate long distance and unlimited domestic long distance* (See C.3.E below).

3. REGULATIONS

- A. Unlimited Dial Tone Line (DTL) Packages are only available to business customers.
- B. Unlimited Dial Tone Line (DTL) Packages are available to business customers who subscribe to 25 or fewer lines (voice grade or voice grade equivalent) at the time service is initiated.
- C. Customers are allowed up to 24 ExpansionPAK II lines. A maximum of eleven (11) such lines can have unlimited calling with this plan or any other unlimited local and/or toll product offered by the company.
- D. Unlimited Dial Tone Line (DTL) Packages are available on one or two year agreements. Expansion Lines are available on a month-to-month basis or a one or two year term.

3. REGULATIONS (Cont'd)

- E. Unlimited Dial Tone Line (DTL) Packages, as well as Expansion Lines with unlimited calling are only available presubscribed to Blackfoot Communications, Inc. d.b.a. Blackfoot as their primary interexchange carrier for both IntraLATA and InterLATA calling.
- F. Long distance calling includes anywhere within the United States, U.S. Territories and Canada.
- G. Unlimited Dial Tone Line (DTL) and Unlimited Centrex Basic Packages are not available in combination with other regional optional calling plans or virtual private network services.
- H. Unlimited Dial Tone Line (DTL) and Unlimited Centrex Basic Packages are not available with services provided under a special contract.
- I. All regulations applicable to Centrex Service as specified on Sheets 61-70 of this Tariff apply to that service when offered with the Unlimited Centrex Basic Package.
- J. There is a 12 month minimum service requirement for the Unlimited Dial Tone Line (DTL) and Unlimited Centrex Basic Package lines in this service bundle. If the customer disconnects a Basic Package line within the first 60 days of service, they will be responsible for additional charges described in the Termination Liability section (See C.4 below). Expansion lines offered on a month-to-month basis would not have an applicable minimum service requirement.
- K. Unlimited Dial Tone Line (DTL) and Unlimited Centrex Basic Packages may only be used for voice applications and may not be used for the transmission of data, for dial-up internet connections, or for any other non-voice application. These services may not be used for autodialing. The Telephone Company reserves the right to restrict the number of other services and/or equipment furnished or used in connection with any particular class of service in order to prevent any impairment in the quality of service furnished.

BUNDLED SERVICE OFFERINGS

C. EXPANSIONPAK II (EPAK II) BUNDLES (Cont'd)

3. REGULATIONS (Cont'd)

- L. Customers enrolled in the ExpansionPAK II Bundles, who fail to pay the entire bundle rate bundle rate due per month, will have all existing ExpansionPAK II Bundles converted to the applicable tariff rates for the individual services included in their bundle. Service changes will not apply for converting service back to their individual tariff rates. Such customers will not be permitted to re-enroll in the ExpansionPAK II Bundle until such time as all associated unpaid balance has been paid in full.
- M. Applicable Initial Connection and Central Office Work Charges will be waived for the initial installation of Unlimited Dial Tone (DTL) Package for Business or Unlimited Centrex Package for Business when the customer subscribes to any term agreement.
- N. Unlimited Dial Tone Line (DTL) and Unlimited Centrex Basic Packages have the option of subscribing to Internet* or Voicemail*.

4. TERMINATION LIABILITY

- A. Unlimited Dial Tone Line (DTL) and Unlimited Centrex Basic Packages are offered on a one or two year term agreement
- B. Early termination of an Unlimited Dial Tone Line (DTL) or Unlimited Centrex Basic Package 1 or 2 year term agreement by the customer will result in a one-time flat Termination Charge of:
 - \$ 300.00 for default within the 1st year of the term
 - \$ 150.00 for default within the 2nd year of the term
- C. Early termination of the term agreement for the Unlimited DTL Expansion Line or an Unlimited Centrex Expansion Line 1 or 2 year term agreement by the customer will result in a one-time flat Termination Charge of:
 - \$ 150.00 for default within the 1st year of the term
 - \$ 75.00 for default within the 2nd year of the term
- D. If the customer cancels all of the Centrex Expansion Lines, the Centrex Basic Line will revert to the individual rate and/or the tariff rate associated with that component.

* Denotes non-regulated service

LIFELINE

1. GENERAL

Applicable to qualifying low-income subscribers to single party residential service of the Company in Idaho Consumers may be eligible for assistance under the Federal Lifeline program which is subject to different criteria and service options. The State Lifeline is program and requirements are defined below. For more information about the Federal Lifeline program visit <http://www.lifelinesupport.org/lis/> to determine if you are eligible.

(C)
|
|
(C)

2. RATES

- A. Baseline Lifeline is a reduction or credit in the local service charges normally paid by qualifying low-income consumers. The reduction to the normal residential one-party rates are as follows:

Residential Access Lines	<u>Monthly Credit or Discount</u>
State Matching Local Rate Reduction	\$2.50

These reductions or credits are from the normal residential one-party service subscribed to by the consumer.

The State may provide an additional discount, beyond the Federal Lifeline discount amount for eligible consumers, pursuant to Idaho code Title 56, Chapter 9. The State Discount is only provided if it is funded through the State's Universal Service Fund or a surcharge upon customers.

(C)

In no case will the discount exceed the rate charged for the service subscribed to by each individual.

- B. The following services are included:

1. Single party, voice grade access to the Public Switched Network
2. Access to emergency services
3. Access to operator services
4. Access to interexchange services, unless toll blocking is chosen
5. Access to directory assistance
6. Toll Blocking

3. STATE PROGRAM ELIGIBILITY REQUIREMENTS

(C)

- A. An applicant must meet all of the following criteria in order to qualify for State Lifeline Service:

(C)

1. The consumer must meet eligibility requirements established in Idaho Code, Title 56 Chapter 9.

Issued Date: December 5, 2016

Advice Letter: ID-16-01

LIFELINE (Cont'd)

3. STATE PROGRAM ELIGIBILITY REQUIREMENTS (Cont') (C)

A. Cont'd.

2. To qualify for Lifeline Service, the consumer must be a head of household and whose gross income is at or below one hundred and thirty-three percent (133%) of the Federal Poverty Limit.
3. The customer must be recertified annually by the appropriate agency.
4. The premises at which the residential service is requested is the applicant's principal place of residence.
5. There is only one telephone line serving the residential premises eligible for the credit. The residential premises shall consist of that portion of an individual house or building or one flat or apartment occupied by a single family or individuals functioning as one domestic unit.

B. Lifeline will not be furnished on a Foreign Exchange (FEX) basis.

C. Lifeline service shall not be disconnected for non-payment of toll charges.

D. If the consumer chooses "toll blocking", the company will not charge a service deposit. No toll blocking charges will be assessed to Lifeline subscribers.

4. FUNDING

The total cost of providing the State Lifeline program shall be funded from a monthly surcharge to each business and residential access line.

Residences receiving Lifeline assistance are exempt from the uniform monthly surcharge.

5. REGULATIONS

- A. The Telephone Assistance Program credit will begin with the next billing cycle of the company following the date the Company receives a valid application from the customer, notification from an appropriate agency or when new service is established for a qualifying customer. (C)

LIFELINE (Cont'd)

5. REGULATIONS

B. The regular service connection charge, move and change charge, and regulations applicable to the service offerings specified in the tariff will apply. The service connection charge and move and change charge to change to or from this program due to eligibility status will be waived.

C. The Lifeline credit will be subject to the following restrictions:

1. Applicant must be head of household or person whose name the property or rental agreement resides.
2. Lifeline credit will only be provided to the applicant's principle residence. (C)
3. The credit will only be applicable for one single residential access line.

6. The Company will offer Lifeline assistance only during such periods as reimbursement of the discount is available to the Company from Federal and/or State revenue sources.

7. IDAHO TELCOMMUNICATIONS SERVICE ASSISTANCE PROGRAM (ITSAP) SURCHARGE

A. Rates Monthly Surcharge

Residence	*
Business	*

B. Conditions

1. A surcharge assessed on all access lines to contribute towards funding for the Idaho Telecommunications Service Assistance Program (ITSAP) or the State matching portion of the Lifeline program.
2. The surcharge rate will remain in effect until otherwise modified, canceled, or changed by the Commission.

* The surcharge rates are those that are established by the Idaho Public Utilities Commission (IPUC).

SERVICE CONNECTION, MOVE AND CHANGE CHARGES (Cont'd)

CONDITIONS

- A. These charges are intended to cover the expense incurred by the Company in conjunction with the following:
- Establishment of service;
 - Change in location of a service to other premises;
 - Transfer of service from one customer to another;
 - Change of telephone number at customer's request;
 - Installation of auxiliary equipment;
 - Restoral of service disconnected for nonpayment or failure to establish credit.
- B. Charges shown are in addition to installation charges shown under other Tariff schedules.
- C. Charges shown in this schedule are based on work being performed during regularly scheduled working hours of the Company's employees. Work performed with overtime labor costs will be performed at direct cost to the customer.
- D. No charges will apply under the following circumstances:
- Service to which no monthly rates apply:
 - Public telephones installed at the initiative or option of the Company.
- F. The non-recurring charges set forth on Sheet 35 shall not apply to an applicant for access line service if the applicant can demonstrate they had previously subscribed to the Company's access line service and had dropped the service in favor of another competitor's service and now desires to return as a customer of the Company.

SERVICE CONNECTION, MOVE AND CHANGE CHARGES (Cont'd)

DEFINITIONS

A. Service Order

Applicable to work done in receiving, recording and processing information necessary to execute a customer's request for the establishment of service. It is also applicable for customer's request for additions, moves or changes to existing service.

B. Premises Visit

Applicable if a Company employee must visit the customer's premises to move or change a service drop or standard network interface at the customer's request. Not applicable when a Company employee is on the customer's premises for any other business purpose.

C. Line Connection

Applicable for work done in the Central Office or work involving Central Office equipment necessary to provide a network access line or make changes to an existing network access line.

If service requires work in more than one Central Office area, this charge applies for each office.

ASSIGNING AND CHANGING OF TELEPHONE NUMBERS

Assigning and Changing of Telephone Numbers

1. The customer has no property right in the telephone number nor any right to continuance of service through any particular CO", and the Company may change the telephone number or CO designation of a customer whenever it considers it desirable in the conduct of its business.
2. In any case where existing service is continued for a new customer, the telephone number may be retained by the new subscriber only if the former customer consents and an arrangement acceptable to the Company is made to pay all outstanding charges against the service.
3. The following service and equipment charge applies to change a telephone number of a CO line or trunk at the customer's request. No charge applies to change the telephone number due to annoyance calls, or Company initiated number changes.

	Nonrecurring <u>Charges</u>
Per telephone number	\$25.50

Termination of Service - Company Initiated

The Company adopts by reference "The Telephone Customer Relations Rules", I.D.A.P.A 31.41.01000 Et Seq. Promulgated by the Idaho Public Utilities Commission and all amendments to those rules which may be hereafter adopted by the Idaho Public Utilities Commission.

The Company may terminate service in accordance with the regulations set forth in I.D.A.P.A 31.41.01300, Denial, Restriction, and Termination of Service, of the above referenced Rules.

Service and Equipment Charge for Restoral of Service

1. A service and equipment charge will be applied to reestablish service if service is interrupted due to nonpayment of exchange service, toll service or other charges, but an order providing for complete disconnection has not been completed. The following charge will be applied unless a charge for restoral of service is included in a specific service section of the Tariff. Additionally, all charges up to the date of the suspension are due prior to restoral of service.
2. Once a disconnection order has been completed, service will be reestablished only upon the basis of a new application for service in addition to any charges for services due up to the date of suspension.

	Non-recurring <u>Charges</u>
Residence, each line restored	\$20.00
Business, each line restored	52.00

OFF PREMISE EXTENSION SERVICE

RATES	Nonrecurring <u>Charges</u>	Monthly <u>Rate</u>
Continuous Property	Actual Cost	No Charge
Continuous Property - Additional Network Interface	Applicable Non-Recurring Charges	\$4.00
Non-Continuous Property Each Location	Applicable Non-Recurring Charges	Flat Rate Residence Access Line Rate

CONDITIONS

Off-premise extension service, where the extension is located in a different building on the same continuous property as the main access line termination, may be installed by the Company. The installation charge will be negotiated between the subscriber and the Company. The subscriber is responsible for the maintenance of any subscriber owned wiring. No recurring monthly charge will apply in this situation.

Continuous property extensions are defined as those where the drop to the additional access point comes directly from the premises of the main access line termination and does not come out of the distribution cable.

Continuous property extensions requiring an additional network interface are defined as those where the drop to the additional access point comes out of the distribution cable and requires an additional network interface.

When off-premise extension service is provided on Non-Continuous property, each location is treated as an access line termination and the applicable access line rates will apply at each location. Installation will be performed based on all applicable Non-Recurring service connection elements.

FOREIGN EXCHANGE SERVICES

A. Description

Foreign Exchange (FX) Service provides dial tone from a wire center in an exchange from which the customer is not normally served. This service is available to either residence or business customers but will not be provided for resale.

B Regulations

1. Where facility conditions permit, the Company will provide FX Service at the rates shown herein. Where FX Services is furnished at remote or isolated locations, or where facilities are not available, or where unusual costs are involved, additional service and equipment, construction, and/or monthly charges may apply.
2. FX Service is normally furnished to a single customer premises. Where facility conditions permit, up to two additional points may be added, subject to 4. following.
3. When a customer subscribes to local service(s) and requests an FX extension, the service will be reconfigured. The FX Service becomes the primary service, with extension(s) connected to the FX Service.
4. FX will not be provided on the same circuit as Foreign Central Office (FCO) Service.
5. Directory Listings

One directory listing will be provided for FX Service in the exchange where the customer's dial tone is obtained.
6. Message Toll Calls

Message Toll rates are applicable in connection with FX Service when calls are made outside the normal dial tone wire center s local calling area.
7. Foreign Exchange Service is not furnished in connection with party line, public or semipublic services.

C. Rate Regulations

1. FX Service consists of Foreign Exchange Access to the customer's premises from the remote wire center, and vice versa, and the following Switched Private Line Access components.

Channel Connection
Channel Transmission Parameter (one per circuit)
Transport Facilities (as applicable)

FOREIGN EXCHANGE SERVICES

D. Transport Facilities

Transport Facilities will be measured and rates from the customer's serving wire center to the remote wire center.

Central Office Service

A. Description

Foreign Central Office (FCO) Service provides voice communication from a customer service wire center to a remote wire center in the same exchange.

B. Regulations

1. FCO Services of offered on individual lines and PBX trunks
2. FCO Service will not be provided on the same circuit as FX Service.
3. FCO Service is not in accord with the normal plan of furnishing telephone service and the Company does not obligate itself to furnish such service, particularly where it involves undue expense or impairment of the service furnished to the general public.
4. Transport Facilities apply based on airline measurements from the wire center from which the customer actually is served to the serving wire center from which the customer would normally be served. In addition, a monthly rate per main line or trunk arranged will apply.

C. Rate Regulations

FCO Service will obtain an access line or trunk service from the local tariff. The Channel Connection is not applicable.

DIRECT-INWARD-DIALING (DID) SERVICE (Cont'd)

DESCRIPTION

1. Direct-Inward-Dialing (DID) Service is a special trunking arrangement which permits incoming calls from the exchange network to reach a specific PBX (Private Branch Exchange) station directly without an attendant's assistance.

CONDITIONS

1. This feature may be provided, in addition to regular, FCO or FX rates and charges, where CO facilities are available and the PBX system or customer-provided switching equipment capabilities permit.
2. One primary directory listing in the main directory of the serving CO is provided for each PBX system.
3. The provision of this feature requires that the customer subscribe to a sufficient number of trunk facilities to adequately handle the volume of incoming calls.
4. Sequential numbers may be assigned if blocks of numbers are available and at the discretion of the Company. Rates and charges associated with sequential numbers are specified in the rate section above.
 - a. A DID sequential number block is a group of twenty (20) telephone numbers in numeric order. The last digit of the first number within the block is a zero (0), and the last number within the number block must include an odd number in the sixth digit and a nine (9) in the last digit.
 - b. Customers requesting that numbers in a sequential number block be removed from the block will be charged a Block Compromise Charge as specified in the rate section above.
5. DID Service is offered with switching vehicles served by trunk service. Answer Supervision is required from the customer's switching vehicle.
6. Direct Inward-Dialing Services are available only to customers who are served from a central office equipped to provide such services.
7. From time to time the Company may offer promotional programs where the non-recurring charges may be waived.

CONDITIONS

Custom Calling Services are available only to those customers who are served from a Central Office equipped to provide such services.

Certain customer calling features are not available with party line service.

From time to time the company may offer promotional programs where the non-recurring charges may be waived.

When a service is programmed for both Conference Calling and Call Waiting only one of the two may be activated at anyone time.

When a service is programmed for both Call Waiting and Call Forwarding only one of the two may be activated at anyone time.

A service may be programmed with any combination of the seven custom calling services except that services with Call Forward Fixed Busy may not be programmed for Call Waiting or Conference Calling. The customer also has available the discount option to package some Advanced Custom Calling Features with Custom Calling Features. See tariff sheet 60.1, Custom and Advanced Custom Calling Packages.

* Packaging of CCF's, as listed above, is being grandfathered only to existing customers as of the effective date of this tariff. Please see tariff Sheet 60.1 for available Custom and Advanced Calling Packages.

CUSTOM CALLING FEATURES (CCF) (Cont'd)

DEFINITIONS

Speed Calling - permits placing local and long distance calls to preselected telephone numbers by dialing an abbreviated code. To add a number to the calling list the customer uses his own telephone.

Call Waiting - a distinctive tone informs the telephone user that another call has been placed to his line. By briefly depressing the hookswitch, the user will be connected to the second caller while holding the first, subsequent depressions of the hookswitch will allow the user to alternate between callers.

Conference Calling - permits a telephone user to add a third party to an existing local or long distance call. It will also permit a telephone user to consult privately with a third party while holding the original call.

Call Forwarding - permits transfer of all incoming calls automatically to any dialable number. The number can be selected by the customer each time Call Forwarding is activated or the call directed to the previously selected number. If the alternate location is not a free call the customer will be billed for each call forwarded.

Call Forward Fixed Busy - permits calls to automatically be transferred to a predetermined alternate number whenever the primary number is busy. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call, the customer will be billed for each call forwarded.

Call Forward Fixed No Answer - permits calls to automatically be transferred to a predetermined alternate number whenever the primary number does not answer after a preset number of ringing cycles. The alternate number can be any dialable number and can be modified only at the central office. If the alternate location is not a free call, the customer will be billed for each call forwarded.

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

CONDITIONS

1. Advanced Custom Calling Features are available only to those subscribers who are served from a Central Office equipped to provide such services.
2. Certain Advanced Custom Calling Features are not available with party line service.
3. Calling Name and Number Deliver, Blocking and Anonymous Caller Rejection require an additional piece of Customer Provided Equipment (CPE) to fully activate features.
4. Selective Call Forwarding, Selective Call Rejection, Selective Call Acceptance, and Distinctive Ringing/Call Waiting provide customers with four different options for treating incoming calls. Each feature is capable of holding a list of up to 12 directory numbers (DNS) that should receive screening treatment. Once a customer has programmed the list and turned on the feature, the switch will screen each incoming call and direct the call to the treatment specified by the feature.
5. For those Advanced Custom Calling Features billed on a per usage basis excluding Call Trace, a maximum amount as listed above will be billed once the per usage charges reach or exceeds the maximum.
6. From time to time, the Telephone Company may offer special promotions to its customers. These offerings will generally consist of a reduced price, a waiver of installation charges or a free service with a purchase of another service. These offerings may be limited to certain dates and locations, and will be for limited time periods. When such an offering made, the Commission will be notified and a copy of the offering notice will be provided to them.

OBLIGATION OF COMPANY

1. Limitation of Obligation with Respect to Privacy Concerns

The Company shall be held harmless by the subscriber in cases where the subscriber telephone number is transmitted via the Caller ID CLASS Feature to another subscriber who subscribes to that service, and the subscriber has not blocked the transmission of his telephone number.

2. Obligation of the Subscriber

Under no circumstances should any subscriber to the Caller ID Advanced Custom Calling Feature use telephone numbers delivered to him for purposes of marketing any service, or for the sale of those numbers to any interested party. Permitted uses of the number information received through the Caller ID service include:

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

OBLIGATION OF COMPANY (Cont'd)

"...billing and collection, routing, screening, and completion of the originating subscriber's call or transaction, or for services directly related to the originating subscriber's call or transaction."

Caller ID information can be used only to market goods and services to existing customers, and only to market goods and services to existing customers that are directly related to those the existing customer already uses.

Notification of illegal procedures having been given herein, the Company shall be held harmless by all parties in cases where subscribers of the Company use this information in an unauthorized manner, as described above.

DEFINITIONS

Anonymous Call Rejection - Allows a customer to reject calls from parties who have blocked delivery of their number.

Automatic Return (Last Call Return) - allows the subscriber to automatically return a call to the number of the phone that last called. By dialing the access code (*69) push-button or 1169 rotary, the callback feature will automatically dial the last calling number. The feature can be deactivated by dialing (*89) push-button or 1189 rotary.

Automatic Redial (Continuous Redial) - allows the subscriber who calls a busy number to dial an access code (*66) push-button or 1166-rotary to be alerted, by way of a distinctive ring, when the number is no longer busy. When the user picks up their phone, they will be connected automatically to the previously busy number. To deactivate the Automatic Recall feature, the user can dial (*86) on a push-button phone or 1186 on a rotary phone.

Call Forward Busy Incoming - allows a subscriber to have incoming calls (those which originate outside the group) forwarded to another number when the called number is busy. The subscriber can activate the feature by dialing (#90) push-button (1190 rotary), and deactivate the feature by dialing (#91) push-button (1191 rotary).

Call Forward Don't Answer - allows a subscriber to have all calls (incoming or intragroup) forwarded to another number if the subscriber does not answer after a preset number of ringing cycles as set by the Company. The subscriber can activate the feature by dialing (*92) pushbutton or 1192 rotary and deactivate the feature by dialing (*93) push-button or 1193 rotary.

Call Forward Don't Answer Incoming - allows a subscriber to have incoming calls (those which originate outside the group) forwarded to another number if the subscriber does not answer after a preset number of ringing cycles which are set by the Company. The subscriber can activate the feature by dialing (#92) push-button and deactivate the feature by dialing (#93) push-button.

Advice Letter: ID-16-01

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

DEFINITIONS (Cont'd)

Call Forwarding Busy - allows a subscriber to have all calls (incoming or intragroup) forwarded to a predetermined alternate number when the called number is busy. The subscriber can activate the feature by dialing (*90) push-button or 1190 rotary and deactivate the feature by dialing (*91) push-button or 1191 rotary. The alternate number can be any dialable number and can be modified only at the Central Office. If the alternate location is not a free call, the subscriber will be billed for each call diverted.

Call Pick Up - allows a subscriber to answer calls that are directed to other phones within their pickup group. The access code to activate the feature is (*8) for a push-button phone.

Call Pick Up Directed - allows a subscriber to answer a call directed to another line which has been answered or is ringing by dialing a preset access code (#60) and the telephone number of the line to be answered. Both the originating line and the line to be answered must be equipped with the feature.

Call Trace Automatic (COT) - allows a subscriber to have the last incoming number automatically traced. The results of the trace are not provided directly to the subscriber; they are output to the telephone company. The Company, at the subscriber request, will forward the results to the police after a case number has been assigned by the police. The access code for this feature is (*57) push-button or 1157 rotary.

Call Trace Manual (COT) - allows a subscriber to request the telephone company to trace incoming calls. This is usually in response involving law enforcement entities.

Call Transfer - enables a customer to transfer an incoming call to a third party or add a third party to an existing call, forming a three-party connection, and then having the option to remain on the call or leave the connection without disconnecting.

Call Transfer - enables a customer to transfer an incoming call to a third party or add a third party to an existing call, forming a three-party connection, and then having the option to remain on the call or leave the connection without disconnecting.

Call Waiting with ID - allows for the automatic delivery of a calling party's name and telephone number to the called customer after the first call waiting tone. The name and number are displayed on customer provided Call Waiting ID equipment.

Caller ID - Name and Number - allows for the automatic delivery of a calling party's name and telephone number (including nonpublished and non listed telephone numbers) to the called customer after the first ring, but before the call is answered. The name and number are displayed on customer provided equipment.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, in its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors omissions or mistakes. The Company's sole obligation shall be to reasonably correct errors in names when notified in writing of such errors.

The calling telephone name and number are only available in those areas where appropriate signaling network connections exist to forward the calling party's name and number. The calling name and number are also not available when incoming calls have been handled by an operator or charged to credit cards. Number delivery for calls originated from a PBX will display the main PBX number only. If the caller's number is a multi-party line, or is blocked, the number will not be displayed.

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

DEFINITIONS (Cont'd)

Caller ID - Name and Number (Cont'd):

Caller ID information and transmitted via Caller ID may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: a) routing or completion of calls, b) billing of calls, c) account management purposes, d) services directly related to the call or transaction, e) verification of calling party identity and f) marketing products or services that are directly related to those previously acquired by the subscriber from the number delivery services subscriber. Caller ID subscribers failing to comply with any of these conditions will have their service terminated.

Caller ID - Number - same as "Name and Number" except only the calling party's number is delivered.

Caller ID Per Call (*67) Blocking - allows a subscriber to block delivery of his/her name and number when calling someone with Caller ID capabilities. The activation code for this feature is 67) push-button or 1167 rotary. This feature is provided free of charge to all subscribers receiving telephone service from suitably equipped central offices.

Caller ID - Per Line Blocking - provides a permanent indicator on a customer's line. Once block is established on the customer's line, the private status can be deactivated by the customer on a per call basis.

Caller ID - Per Call Unblocking - allows a subscriber who has Caller ID - Per Line Blocking to unblock delivery of his/her name and number when calling someone with Caller ID capabilities. The activation code for this feature is *82 (1182) rotary. This feature is provided free of charge.

Cancel Call Waiting - allows the subscriber to cancel Call Waiting before or during one telephone call. The access code to cancel Call Waiting is (*70) push-button (1170 rotary).

Custom Ringing - service enables two telephone numbers to be assigned to a single-party line. Each telephone number is assigned a separate ringing pattern so the called party can determine the nature of the call. Will be billed to primary number.

Custom Ringing Plus - same as Custom Ringing except with directory listing.

Dial Call Waiting - allows a subscriber with a line equipped with the feature to direct a Call Waiting tone or a Distinctive Ringing signal to a line equipped with Distinctive Ringing. The feature is activated by dialing a preset access code (#81) (1181 rotary) and the telephone number of the line to which the signal is directed.

Distinctive Ringing/Call Waiting Access - allows a subscriber to receive a Distinctive Ringing signal or an audible Call Waiting tone from a line equipped with Dial Call Waiting. If the call line is idle, a Distinctive Ringing signal will be heard. If the called line is busy, the called line receives a Call Waiting tone. The access code for this feature is (*81) push-button or 1181 rotary.

Advice Letter: ID-16-01

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

DEFINITIONS (Cont'd)

Do Not Disturb - allows subscribers to prevent incoming calls from ringing at their stations. Only callers who have the subscriber's Personal Identification Number (PIN) can override the Do Not Disturb feature. To activate the feature, the subscriber can dial (*78) push-button or 1178 rotary. To deactivate the feature, the subscriber can dial (*79) push-button or 1179 rotary. Subscribers with push-button phones can change their PIN by dialing the access code (#87) push-button or 1187 rotary.

Fixed Calling - after dial tone is obtained, if the caller does not commence dialing within a predetermined length of time, a call will automatically be placed to a number previously selected by the subscriber. If the number is long distance, the subscriber is liable for any charges.

Remote Access Call Forward – allows a user to activate or deactivate the Call Forwarding feature from a local or remote telephone. This is done by dialing 208-624-5600 for access, entering the user's telephone number, a Personal Identification Number (PIN) and the activation/deactivation code. Customer must have Call Forwarding feature on their account for this service to be active. This feature may be activated from any telephone.

Remote Call Forward (RCF) – allows incoming calls to be forwarded to a telephone number in a distant location. RCF does not require a physical telephone line. For example, a business could have a local phone number but with no local office and forward calls using the feature to their primary business location in another city. If your calls are forwarded to a long distance number, long distance toll charges will apply.

Selective Call Acceptance - allows subscribers to specify a list of numbers from which they are willing to accept calls. Calls from numbers not contained on the list are routed to an appropriate announcement. The access code for this feature is (*84) push-button or 1184 rotary, and is used to add or delete numbers from the list of acceptable calls.

Selective Call Forwarding - permits the subscriber to create a list of calling numbers that are to be call forwarded. If a call is received from a Directory Number on the screening list, the call is forwarded to the designated forward-to number. All other calls are treated normally. The access code for this feature is (*63) push-button or 1183 rotary.

Toll Authorization – allows a subscriber to restrict unwanted long distance calls from being placed from their telephone. By adding this Toll Authorization feature long distance calls will not complete without the caller inputting via the keypad a selected security code. Caller dials their long distance number and will then hear a second dial tone at which time they enter their selected personal identification number (PIN).

Unavailable Call Forward - This service forwards calls from the subscriber's line to an alternative [target] number only if the dialed number is unavailable, for example if the telephone is unplugged or loses power. This feature does not redirect phone calls when the line is simply busy.

The customer chooses a target number to which they wish to have calls temporarily forwarded and Blackfoot provisions the target number into its switch. The customer has no ability to change their pre-set target number for forwarding and must call Blackfoot to change. There are no customer access codes. For customers that absolutely rely on being able to receive calls to conduct business, this is insurance that they can continue to receive calls to a single forwarding number as an interim solution until normal service is restored. Examples of this would be: A business customer line where orders are taken, call centers, anybody with their own phone system (PBX, Key System), and anyone who relies on being able to receive phone calls.

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

DEFINITIONS (Cont'd)

Unavailable Call Forwarding (UCF) will work with:

- POTS (analog and fed from an Integrated Access device (IAD))
- Ergo (IP Centrex)
- PRI / DSS
- PBX (Private Branch Exchange) and Key Systems (KS)

Analog POTS customers will benefit from this feature only if the POTS port in the CO goes down (e.g., Occam POTS port). This feature will NOT redirect calls when a copper line to the premises is accidentally cut, or the customer's phone jack or power is unplugged.

In addition to the same benefit as with analog POTS, if the Blackfoot IAD was to fail, the POTS line would be redirected. This feature will NOT redirect calls when a copper line to the premises is accidentally cut, or the customer's phone jack or power is unplugged.

PBX / KS Customers

Key System (KS) and PBX systems are typically served with a POTS line, or with a DSS (T-1)/ PRI (T-1).

Depending upon on how the system is served, the UCF feature works as described below.

Served with DSS/ PRI: Unavailable Call Forwarding will route calls to the customer's target number if the PBX or KS cannot be contacted by the Blackfoot switch in our CO, including when:

- The T-1 (DSS / PRI) from the Blackfoot CO to NIU (Network Interface Unit) located at the customer premises is cut.
- The NIU is inoperative (network interface unit)
- Connection from NIU to PBX/KS is cut or unplugged
- PBX/KS is unplugged

Served with POTS: If the KS or PBX are not served by a T-1/PRI and are service by POTS or POTS via IAD (e.g., Adtran or VINA), then those scenarios will apply (see the POTS scenarios above, the VINA scenario is below).

The **Unavailable Call Forwarding** would be assigned against the entire PBX group number block, meaning the **Unavailable Call Forwarding** would set up against the PBX main number and the main number and all the DID assigned in this group will follow the **Unavailable Call Forwarding** number assigned.

Usage Sensitive Call Forwarding - causes all calls attempting to terminate to a subscriber line to be directed to an alternate line, whether the subscriber's line is busy or idle. The feature differs from standard Call Forwarding in that the subscriber is charged on a usage basis rather than a flat rate basis. The access code to activate the feature is (*72) push-button or 1172 rotary To deactivate the feature the access code is (*73) push-button or 1173 rotary.

Usage Sensitive 3-Way Calling - allows a subscriber to add a third party into an existing conversation by dialing an access code (*71) push-button or 1171 rotary. The feature differs from standard 3- Way Calling in that the subscriber is charged on a per usage basis rather than a flat rate basis. The access code to activate the feature is (*74) push-button or 1174 rotary To deactivate the feature the access code is (*75) push-button or 1175 rotary.

ADVANCED CUSTOM CALLING FEATURES (ACCF) (Cont'd)

DEFINITIONS (Cont'd)

Voice/Data Protection - allows a subscriber to inhibit intrusion features (e.g. Call Waiting and Operator Verification) when the subscriber's line is busy. Voice/Data Protection prevents data transmission errors typically caused by the interruption tones associated with such features. The subscriber can activate the feature by dialing (*97) push-button or 1197 rotary and deactivate the feature by dialing (*98) push-button or 1198 rotary.

Voice/Data Protection Usage Sensitive - allows a subscriber to inhibit intrusion features (e. Call Waiting and Operator Verification) when the subscriber's line is busy. Voice/Data Protection prevents data transmission errors typically caused by the interruption tones associated with such features. This feature differs from standard Voice/Data Protection in that the feature remains in effect for the duration of only one call upon activation, and the subscriber is charged on a per usage basis. The subscriber can activate the feature by dialing (*94) push-button or 1194 rotary.

*Reference page 35.

CONDITIONS

1. Payphone Service includes lines to which coin, coinless, card reader or a combination of coin/card reader telephones may be attached.
2. Payphone Service is a business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device (NID) at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. A maximum of one customer-provided instrument implemented pay telephone may be connected to anyone instrument or CO implemented coin line.
4. General Rules and Regulations found in this tariff are applicable to the provision of Payphone Service.
4. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.

PAYPHONE SERVICE (Cont'd)

CONDITIONS (Cont'd)

6. A Network Interface Device will be installed at a location determined by the Company which is accessible to the customer. The Network Interface Device (NID) is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
7. Applicable Nonrecurring Charges plus actual costs apply for the installation, move or rearrangement of the Network Interface Device (NID) on the customer's premises to establish or reestablish network access.
8. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
9. Extensions to a payphone service provider are not permitted.
10. The Multiline business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.
11. Special Number Assignment is available where technically feasible and requested numbers are available.

RESPONSIBILITY OF THE CUSTOMER

1. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service.
2. The telephone instrument, plus all ancillary equipment, must comply with the requirements of all applicable federal, state and local laws and regulations concerning disabled, handicapped and/or hearing-impaired persons.
- 3a. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
- b. Customer's are responsible for any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone.

PAYPHONE SERVICE (Cont'd)

RESPONSIBILITY OF THE CUSTOMER (Cont'd)

4. The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Rules and Regulations or be connected behind an FCC registered protective coupler under Part 68 of the FCC Rules and Regulations and have the following operational characteristics:
 - a. Must be able to access the operator at no charge and without using a coin.
 - b. Must be able to access Directory Assistance.
 - c. Must be able to complete local and toll calls.
 - d. Must be able to access 911 emergency service, where available, at no charge and without using a coin.
 - e. Must be able to access toll free 800/888 Service at no charge and without using a coin.
 - f. Must allow any End User to reach their preferred Long Distance Carrier by dialing the appropriate Long Distance Carrier Access Code. These codes must conform to the industry standard formats of 10XXX and 10XXXX.
5. Instruments must be labeled or there must be posed in close proximity to the instrument information including:
 - a. Name, address and (local or toll free) telephone number of the private pay phone owner;
 - b. Procedure for reporting service difficulties and method of obtaining refunds;
 - c. A statement that the instrument is not owned by the Local Exchange Company and that charges for calls made on the instrument are not regulated;
 - d. Dialing instructions;
 - e. Operational characteristics such as pre-pay or post-pay;
 - f. Emergency dialing information including dial tone first, coin-free 911 or other emergency access; and
 - g. Where calls are timed, the time limits per call.

PAYPHONE SERVICE (Cont'd)

RESPONSIBILITY OF THE CUSTOMER (Cont')

6. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
7. The customer is responsible for compliance with the FCC's Rules and Regulations and the State Commission s Rules and Regulations regarding the use of customer-provided pay telephones.

VIOLATION OF REGULATIONS

1. Where any customer-owned pay telephone is in violation of this Tariff, the Company will take whatever action is necessary to protect the network and will promptly notify the customer in writing of the violation.
2. The customer shall discontinue use of the customer-owned pay telephone or correct the violation and notify the Company in writing within five (5) days after receipt of such notice that the violation has been corrected.
3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer service until such time as the customer complies with the provisions of this Tariff.

INSTRUMENT IMPLEMENTED PAYPHONE SERVICE

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

CENTRAL OFFICE (CO) IMPLEMENTED COIN LINE

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. The company does not offer operator services. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).

Advice Letter: ID-16-01

PAYPHONE SERVICE (Cont'd)

CENTRAL OFFICE (CO) IMPLEMENTED COIN LINE (Cont'd)

3. Validation may be performed through Originating-Line Screening (OLS), OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff when facilities and services are available.
4. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

FEATURES AND FUNCTIONS

1. Answer Supervision and Coin Collection Return features provide signaling on the line notifying the line that the called party has answered and an electronic impulse indicating to the payphone equipment to collect or return coin(s) to the calling party. These features are additives to the CO Implemented Coin Line.
2. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are available and it is technically feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
3. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.

PAYPHONE SERVICE (Cont'd)

DEFINITIONS

Billed Number Screening - allows the customer to identify to the Telephone Company that they will not accept any Third-number and/or Collect calls for billing to their telephone number. The Company places information regarding this screening restriction into a database that is normally accessed by operator service providers prior to such calls being completed. When customers have indicated that they do not wish to accept billing for any Third-number or Collect calls, the database will not validate charging for such a call. The operator service provider can then decide whether to complete the call based on this information provided by the database. Billed Number Screening can be ordered to screen third-number billed calls collect calls, or both.

Central Office (CO) Implemented Coin Line - access line that provides coin signaling.

Demarcation Point - the point of connection, provided and maintained by the telephone company, at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling, this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

Network Interface Device (NID) - a device wired between the telecommunications protector and the inside wiring to isolate the customer's equipment from the network.

DIRECTORY LISTINGS

RATES

	Monthly <u>Rate</u>
Additional or Alternate Listing	
- Business	\$3.00
- Residence	1.50
Cross Reference or Duplicate	2.00
Extra Lines, per line	2.00
Non-list	2.50
Non-publish	4.00

CONDITIONS

The regulations for directory listings, as provided in this section, apply only to that section of the directory containing the regular alphabetical list of names of subscribers.

Primary Listing

One listing without charge, termed the Primary Listing, is provided as follows:

1. For each separate subscriber service. When two or more main station lines or PBX trunk lines are consecutively operated, the first number of the group is considered the primary listing.
2. Non-listed telephone numbers are listed in the information file, but are not listed in the directory for which the Company provides information. They will be given out upon request.
3. Non-published numbers are not listed either in the directory or the information file and are not to be given out to anyone unless authorized by court of law.

DIRECTORY LISTINGS (Cont'd)

RESTRICTIONS

Names in directory listings shall be limited to the following:

1. In connection with residence service:
 - (a) The individual names of the subscriber, or
 - (b) The individual name of a member of the subscriber's family, or
 - (c) The individual name of a permanent member of the subscriber's household, or
 - (d) Dual (joint) listings for customers who share the same surname and reside at the same address.
2. In connection with business service:
 - (a) The individual name of the subscriber, or
 - (b) The name under which the subscriber is actually doing business, or
 - (c) The name under which a business is actually being conducted by someone other than the subscriber and which the subscriber is authorized by such other to use, or
 - (d) The individual names of the officers, partners, or employees of the subscriber, or (e). The names of departments when such listings are deemed necessary from a public reference viewpoint.

The Company may require that the subscriber provide the Company with written permission for the insertion or continuance of listings. The Company may refuse to accept or may delete listings of a business which the subscriber claims to represent. The Company may refuse to accept or may delete a listing which includes the trade name of another.

SEASONAL SERVICE

RATES

Minimums, Maximums, and Discounts

	<u>Residential</u>	<u>Business</u>
1. Rate for Flat Rate Network Access		
Line Service, per month, per line	\$14.00	\$21.00
2. Non Recurring Seasonal Service Order charge.	\$25.00	\$25.00

CONDITIONS

1. Seasonal Service is available to customers that leave the Company's service area for an extended period of time but wish to suspend their existing telephone service while away.
2. In order to receive a seasonal discount during any twelve consecutive months of service, a customer must first subscribe to regular exchange service for a minimum 6 months regular service. Customers placing their service on seasonal status will not be charged the \$25.00 non-recurring for the first instance of seasonal service within a twelve month period. The charge will be applied when seasonal service is initiated for each subsequent occurrence of seasonal service during a 12 month period. The non-recurring seasonal service order charge will not be applied when the Customer returns to regular exchange service.
3. Regulations
 - a. Only the basic monthly access line rate and FCC End User Line Charge are reduced by the applicable seasonal rates.
 - b. The Company's practices covering the discontinuance of service for non-payment of any amounts due the Company for telephone service will apply.
 - c. If service is established at the same location for a second customer, the new customer must have regular exchange service for the number of months specified in the Rates section.
 - d. The Company may request that payment for service be made in advance.

ERGO (IP CENTREX)

RATES

36 Month Term Options:

	<u>Per Trunk</u>	<u>Transport</u>
Tier 3 to 14 Trunks	\$25.00	\$ 30.00
Tier 15 to 49 Trunks	\$25.00	\$500.00
Tier > 50 Trunks	\$25.00	\$150.00

60 Month Term Options:

Tier 3 to 15 Trunks	\$21.00	\$ 25.00
Tier 15 to 49 Trunks	\$21.00	\$300.00
Tier > 50 Trunks	\$21.00	\$100.00

SERVICE DESCRIPTION

Service offering is sold as a combined phone equipment and voice service solution. The phone hardware (handset) is sold in conjunction with the local phone service in addition to many features. The ergo solution uses voice-over-IP (VoIP) technology that allows a broadband connection (via DSL, T1, fiber, wireless, or Ethernet over Copper) to provide both the voice service as well as an additional internet service that the customer needs. All services are carried over the Fremont private network and not the public internet. The service provides a specialized business solution (primarily, but not exclusively, for voice service) where the equipment providing the call control and service logic functions is owned and operated by Fremont and hence is located on the Fremont premises. The service frees the customer from the costs and responsibilities of major equipment ownership and can be thought of as an outsourcing solution.

CONDITIONS

1. Ergo, also known as Hosted IP Centrex, Hosted PBX, Virtual PBX or Hosted Phone System is available for purchase by Business customers only
2. Trunks and Transport can only be sold as a unit and not separately.
3. Service availability may be limited.
4. Regulations
 - a. The FCC End User Line Charge and Access Recovery Charge will be assessed on a per Trunk basis.
 - b. The Company's practices covering the discontinuance of service for non-payment of any amounts due the Company for telephone service will apply.
 - c. The Company may request that payment for service be made in advance.

AUTOMATIC DIALING AND ANNOUNCEMENT DEVICES

RATES

	Monthly <u>Rate</u>
Per Access Line	Flat Rate Business Access Line Rate

DESCRIPTION

An automatic dialing and announcement device (ADAD) dials telephone numbers it has been programmed to dial and plays a recorded message when a call is answered. There are two types of ADADs: those used for solicitation calls and those used for non-solicitation calls.

CONDITIONS

Certification

Before any ADAD, other than one that will be used to deliver a message in response to an emergency, may be connected to the telephone network, the potential user must verify in writing to the Company that the ADAD(s) will have the capacity to comply with the requirements of these tariff provisions and that the user will use the ADAD(s) only in compliance with these provisions.

Regulations

- A. The potential user must notify the Company in writing of the intended use of the ADAD(s). The notice shall list the calendar days and clock hours during which the ADAD(s) will be used and shall estimate the message attempts per hour and the average length of completed messages.
- B. The ADAD user (customer) must notify the Company in writing within 30 days of any changes in the ADAD operation that results in either an increase or decrease in the number of message attempts per hour and/or the average length of completed message

AUTOMATIC DIALING AND ANNOUNCEMENT DEVICES (ADADS) (Cont'd)

- C. The use of automatic dialing and announcement devices (ADADS) that do not automatically disengage the called party's line when the called party hangs up its receiver are absolutely prohibited, except for their use in security and alarm systems or other systems in which the called party has previously agreed to the ADAD's call and has consented to its line being engaged in this manner.
- D. ADADS are prohibited from making unsolicited calls before 9:00 AM or after 9:00 PM.
- E. ADADS are prohibited from calling public safety numbers such as police, fire and emergency services. ADADS are prohibited from calling unlisted, unpublished or inward WATS numbers. ADADS are prohibited from calling more than one number held by a given called party.
- F. ADADS comply with I.D.A.P.A.31.51.02, rules for automatic dialing and announcement devices.

CONSTRUCTION CHARGES

1. GENERAL

Line extensions which entail construction charges, consist of additions to plant beyond existing leads, and do not include additions to plant along existing telephone utility leads. Line Extension charges are applied to subscriber applicants with abnormally long extension requirements to prevent unreasonably burdening the general body of existing subscribers. All construction will be owned and maintained by the Company.

Construction charges set forth in this schedule apply in connection with all types of service when established by means of an extension to the Company's plant consisting of " buried wire or pole construction, including extensions by means of poles to be owned solely by the Company or jointly with others and by means of contacts or contact space on poles of others. The Company shall determine the type of construction to be used.

When an applicant is so located that it is necessary to use private and/or public right-of-way to furnish service, and the Company is unable to obtain the required right-of-way without cost the applicant may be required to pay the costs incurred in securing the right-of-way in addition to other charges.

In lieu of the charges otherwise applicable, the applicant, if he so elects, may initially clear the right of way, furnish and set the required poles in accordance with the normal construction standards of the Company. In all instances the ownership of facilities shall be entirely vested in the Company.

The locations of line extensions are determined by the telephone company and the distances (including drop wire) are measured along the route so selected.

Construction to serve two or more customers, whether on public right-of-way or private easements, may be used for serving subscribers in general.

Issued Date: December 5, 2016

Effective Date: December 2, 2016

Advice Letter: ID-16-01

CONSTRUCTION CHARGES (Cont'd)

GENERAL (Cont'd)

The total extension to plant (along public roads or on private property) to be furnished without charge shall not exceed 1000 feet per application. Where the total extension exceeds 1000 feet, the Free Footage Allowance is first computed for the private property portion of the extension prior to computing any allowance for the construction along public roads. In addition to the Free Footage Allowance, customers shall receive up to 300 feet of drop wire construction without charge.

Contracts, covering periods not more than three years of telephone service, may be required by the Company as a condition precedent to establishment of the service when line extensions are necessary. Such contracts will not require advance or unusual payments in excess of those otherwise required by this schedule, and shall not interfere with the Company's right to collect amounts as provided elsewhere in its tariff schedule.

Construction charges assessed to applicants will be based on Rural Utilities Service (RUS) Rules and Regulations when applicable. In case of disagreement or dispute regarding the application of any provisions of this rule, or in circumstances where the application of this rule appears impracticable or unjust to either party, the utility, applicant, or applicants may refer the matter to the Idaho Public Utilities Commission for ruling.

The estimated cost of the line extensions are payable in advance. In the event of overcharge refunds to applicants will reflect the difference between the estimated cost and the actual cost of the line extension. In the event of undercharge, the Company shall bill the applicant for an amount not to exceed 10% of the estimated extension costs. Any adjustments between the estimated costs advanced by the applicant and the reasonable actual cost shall be made within sixty days after completion of the extension.

CONSTRUCTION CHARGES (Cont'd)

2. LINE EXTENSIONS

RATES

A. Line Extensions and Additions within the Base Rate Area:

Extensions and additions to plant necessary
to provide telephone service No Charge

B. Line Extensions and Upgrades outside the Base Rate Area:

a. Upgrades to plant along existing
exchange or toll telephone circuits of
this utility, including 1000 feet of drop
wire construction. No Charge

b. Extension to plant beyond existing exchange or toll telephone circuits of this
utility, including poles and buried wire.

(1) Free Footage Allowance:
The Company will construct at its
expense a maximum of 1000 ft. of
line extension per applicant of
which not more than 300 ft. of
this free footage may be on private
property or along a private road.
The Company will also construct at its
expense a maximum of 300 feet of drop
wire per applicant. No Charge

(2) Extensions to plant and drop wire
construction exceeding free
footage allowance: Actual Cost

Issued Date: December 5, 2016

Effective Date: December 2, 2016

Issued by: Michelle Owens
Fremont Telcom Co. d.b.a. Blackfoot

Advice Letter: ID-16-01

CONSTRUCTION CHARGES (Cont'd)

2. LINE EXTENSIONS (Cont'd)

- c. For line extensions of unusually long length or high cost, the Company may also estimate the cost of providing radio telephone service. The Company or applicant may request either line extension or radio telephone service and the applicant will pay the actual cost for the chosen option in excess of the free allowance which would be provided under the line extension option.

GROUP OF APPLICANTS

When construction is required to serve a new applicant, a survey is made of all prospective subscribers who might be served from the new construction or an extension thereof and who might benefit by being included in the project. Free footage allowances are made only for those prospective subscribers making a written application for service.

All applicants are grouped in a single project when there is no more than one-half mile of construction between successive applicants. Separate projects are established whenever the construction between any two successive applicants exceeds one-half mile. Two or more projects are combined, however, whenever this results in lower charges (or no increase in charges) for all of the applicants involved.

An applicant at any premises receives only a single line extension and drop wire allowance regardless of the number of services ordered at that premises.

Applicants ordering service at more than one premises are treated as separate applicants at each premises for purposes of this schedule.

Advice Letter: ID-16-01

CONSTRUCTION CHARGES (Cont'd)

GROUP OF APPLICANTS (Cont'd)

For the purpose of determining project charges, the collective free footage allowance for the group is subtracted from the overall Line Extension footage required for service. The total project cost is then divided equally among all applicants.

Exceptions:

- (1) No applicant is required to pay a higher charge than he would if the project were established for him alone. Any difference between this charge and the average charge for the group is absorbed by the Company.
- (2) Charges for extensions to plant on private property (including drop wire) are assumed by applicants on whose property such extensions are made and these charges are not included in the overall charges for the project. Likewise, the free footage allowance on private property is not included in the collective allowance for the project.

CHARGES TO SUBSEQUENT APPLICANTS

When a new applicant can be served from a completed project, within three years from the date service was initially established for such project, the charges for the entire project are recomputed to include the new applicant. The new applicant pays a prorated amount of the line extension charge based on the number of months (a fraction of a month is counted as a full month) remaining in the original three-year term. The time is computed from the date service is established for the new applicant.

Where additional construction is required for an applicant to be served from a project less than three years old, the cost of the project is computed as above if such recomputation does not increase the charges to those customers served from the existing project. Otherwise, a new project will be established.

When a project is recomputed as described above, existing subscribers will be refunded a prorated amount of the difference between the original charges and the recomputed charges based on the remainder of the three-year term. Recomputation of the charges due to the addition of new applicants is made on the assumption that there have been no disconnects.

Missoula, MT 59808

Advice Letter: ID-16-01

CONSTRUCTION CHARGES (Cont'd)

CHARGES TO SUBSEQUENT APPLICANTS (Cont'd)

Where construction on private property is subsequently treated as being on public roads, or where a private road is dedicated to the public use, within three years of completion of the original project, the time extension charges shall be recomputed and refunds made to the initial applicants where applicable.

DISCONNECTS AND REUSE OF FACILITIES

When one or more subscribers on a project disconnect within the three year term, no refund is made of the line extension charge to the disconnected subscribers. Charges to remaining subscribers are not affected by disconnects.

When a subscriber disconnects service or moves off the project and service is established for a new applicant at the same location, any adjustment in charges is a matter for negotiation between the original subscriber and the new applicant.

Where a subscriber is disconnected for any reason and subsequently re-applies for service from the same premises or another premises on the same project, the subscriber will not be required to pay any additional line extension charges in addition to his total original obligation.

REAL ESTATE SUBDIVISIONS

Line extensions into real estate subdivisions will be made by the Company provided 60% of the estimated total cost of such extension is advanced to the Company by the subdivider. The amount so advanced will be refunded to the subdivider when 50% of the estimated total telephone services are connected within the subdivision during a period of five years from date of agreement. The subdivider shall notify the Company in writing when the 50% hook-up has been attained. Final evaluation will be made by the Company.

RIGHTS-OF-WAY AND EASEMENTS

1. Within the applicant's subdivision, the Company will construct, own, operate, and maintain facilities only along public streets, roads, and highways which the Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Company may be obtained without cost or need for condemnation by the Company.
2. Rights-of-way and easements, within the subdivision, satisfactory to the Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Company. Such clearance and grading must be maintained by the applicant during construction by the Company.

CONSTRUCTION CHARGES (Cont'd)

TEMPORARY OR SPECULATIVE SERVICE

Line extensions and/or additions to provide service to an applicant engaged in temporary or speculative business will be made on the condition that applicant pays to the Company the total cost of the construction and removal of the line necessary in furnishing the service, less the salvage value of the material used.

If a subscriber maintains for thirty-six consecutive months a service installation which was originally established on a temporary or speculative basis, and if his business or operation at the end of that time has proven its permanency to the satisfaction of the Company, there will be refunded to the subscriber an amount equal to the difference between the payment made and the normal line extension charge which would have been applicable at the time the subscriber service was installed.

In no event shall service installation be classes as temporary or speculative for more than six years. Refund provisions apply at the end of not more than six years.

SAVING CLAUSE

Arrangements may be made, other than as provided for above in this schedule, in the following cases subject to prior authorization of the Idaho Public Utilities Commission:

Where the applicant requests a particular type of construction or a specific route for extensions to meet the applicant's special requirements and where the construction or route so requested differs from the normal standards of the Company and is not required by law.

Line extensions involving underground crossings of railroads, highway or power lines submarine cable, or along river crossings.

Where construction is required to provide service on a seasonal basis, or to provide Foreign Exchange Service, or to meet other unusual conditions.

Any other line extension and/or additions involving unusual or disproportionately large construction expenditures as compared to the usual line extension.

CONNECTION WITH SUBSCRIBER-OWNED EQUIPMENT

RATES

Rate

Local line access will be supplied at the rates described in the "Local Measured Rate Service" and "Flat Rate Access Line Service" Sections of this Tariff.

Service Call

If a trouble report results in a service call
and the trouble is found to be in the customer-
provided equipment:

\$30.00

CONDITIONS

General

Customer-provided terminal equipment or communication systems (CPE) used in conjunction with telephone service shall not interfere with any of the service offerings of the Company, endanger Company employees or the public, damage or require the alteration of Company facilities, interfere with the proper functioning of Company facilities, or impair the operation of the telephone network. Upon notice from the Company that the CPE is causing or is likely to cause such hazard or interference, the customer shall make whatever changes are necessary to correct the problem.

The Company shall not be responsible for the installation, operation maintenance of any CPE. The customer shall be responsible for the payment of all Company charges for visits by the Company to the customer premises where a service difficulty or trouble report results from customer-provided equipment or facilities.

Where CPE is connected to Company facilities, the responsibility of the Company shall be limited to the furnishing, operation and maintenance of such facilities in a manner suitable for telephone service. The Company shall not be responsible for the through transmission of signals generated by the CPE or, for the quality of, or defects in, such transmission, or the reception of signals by CPE.

The Company shall not be responsible to the customer if changes in any of the facilities operations or procedures of the Company render any CPE obsolete or require modification or alteration of such equipment or otherwise affect its use or performance.

Where CPE is used with telephone service in violation of any of these conditions, the Company will take whatever action is necessary to protect the network and will promptly notify the customer of the violation in writing. The customer shall discontinue use of the equipment or correct the violation. Written confirmation of the corrective action taken will be supplied to the Company within 10 days following receipt of notice of the violation by the customer. Failure of the customer to comply with these requirements shall result in suspension of the customer service until the customer complies with the provision of this Tariff.

Individual line with Hunting	Service Order Charge	16.24	17.78
PBX Trunk Public PBX	Service Order Charge	19.84	21.08

DESCRIPTION

1. Business exchange service is normally furnished for the exclusive use of a customer, and/or employees, agents or representatives. Joint use allows other individuals, firms or corporations to share the customer's service.

CONDITIONS

1. Joint User Service can be associated only with business individual line, PBX, or Centrex Service.
2. Applications for Joint User Service and for service, equipment or facility changes in connection therewith must be executed by the customer who is responsible for payment of all charges incurred.
3. Total charges for telephone service, allocated by the primary customer among the users cannot exceed the Company's total charges to the customer.
4. No special or distinctive arrangements are provided to signal the joint user of the primary customer's service.
5. For Joint User Service where the listing appears in the directory, both the initial and subsequent contract periods will be coexistent with the directory period.
6. Joint User Service is automatically discontinued when:

The primary customer's service is terminated.

The primary customer notifies the Company that the joint user no longer shares the service and the minimum service period has been satisfied.

STAND-BY LINE SERVICE

RATES

	Nonrecurring <u>Charge</u>	Monthly <u>Rate</u>
Stand-By Line Service Per Line	Line Conn. Charge	\$16.43
Usage, Incoming and Outgoing		Per Minute <u>of Use</u> \$0.05

DESCRIPTION

Stand-By Line service is an additional line service which allows business customers to expand access to their business and expand the capacity to make outgoing calls on an as needed basis. This service is designed for customers that experience periodic peaks and valleys in calling volumes to and from their business.

CONDITIONS

1. Stand-By Line service is available to business customers.
2. Stand-By Line service cannot be used as the primary business line. Customers must have flat business individual line or trunk service at the location for which they are ordering stand-Line service.
3. Stand-By Line service provides an additional line which measures both incoming and outgoing calls on a per minute of use basis. The incoming and outgoing call capacity is always active.
4. This service is offered subject to the availability of existing central office facilities.
5. Regulations, rates and charges as described elsewhere in the Company's tariffs, apply as appropriate.

LINE / TRUNK HUNTING SERVICE ARRANGEMENTS
STANDARD HUNTING SERVICE

RATES

	Nonrecurring <u>Charge</u>	Monthly <u>Rate</u>
Standard Hunting Service		
Residence, per line	-	\$8.00
Business, per line or trunk	Service Order Charge	8.00

CONDITIONS

1. This is an optional arrangement available to customers with two or more individual line or trunk services. Where facilities permit, such lines/trunks will be arranged so that incoming calls to a busy line/trunk will overflow to other available lines/trunks for that customer. The following types of hunting arrangements are available: series and multiline (standard hunting), circular and preferential.
2. The rate for each individual line/trunk arranged for Standard Hunting Service is in addition to the regular access line/trunk rates.
3. The nonrecurring charge applies for business customers to establish, change to or from or to rearrange Standard Hunting Service, except when changing from series to multiline or vice versa.
4. The above rates and charges are for each access line/trunk arranged for Standard Hunting Service. They are applicable to all but the last line so arranged.
5. Standard Hunting Services are available only to customers who are served from a central office equipped to provide such services.
6. From time to time, the Company may offer promotional programs where the nonrecurring charges may be waived.

LINE / TRUNK HUNTING SERVICE ARRANGEMENTS
STANDARD HUNTING SERVICE

RATES

	Nonrecurring <u>Charge</u>	Monthly <u>Rate</u>
<u>Optional Features-Circular Hunt</u>		
Residence, per line	-	\$3.00
Business, per line or trunk	Service Order Charge	\$3.00

DESCRIPTION

Circular Hunt is an option of Hunting Service that allows for hunting to start at the dialed number and continues in ascending order to the last number in the hunt group. Hunting then proceeds to the first number of the hunt group and continues through the group until an idle line is reached or the number just preceding the dialed number is reached.

CONDITIONS

The rates and charges for Circular Hunt are in addition to the rates and charges for Hunting Service. Only one nonrecurring charge will apply for business customers when both are ordered at the same time, for the same customer, on the same line.

BUSY VERIFICATION/INTERRUPT SERVICE

RATES

	<u>Rate</u>
Verification, per request	\$1.50
Interrupt, per request	3.00

DESCRIPTION

Customers may obtain assistance in determining if a called line is in use (herein called verification) or in interrupting a conversation in progress (herein called interrupt) by calling the "0" operator. This service applies to local calls.

CONDITIONS

1. A verification charge applies each time the operator verifies a called line and hears voice communication.
2. An interrupt charge applies each time an operator interrupts a conversation that is in progress on the called line.
3. Verification and interrupt service is furnished where and to the extent that the facilities permit.
4. The customer shall indemnify and save the Company harmless against all claims that may arise from either party to the interrupted call or any person.
5. If an operator both verifies the condition of the line and interrupts conversation on the same request, the interrupt charge only applies.
6. The charge for interrupt applies whenever the operator interrupts the conversation even though one or the other parties interrupted refuses to terminate the conversation in progress.
7. Charges for verify/interrupt service may be billed to a calling card, special billing number or third number. Charges may not be billed on a collect basis.
8. The charges for verify/interrupt service are in addition to any applicable rates, i.e., operator assistance charges or calling card message charges. Time-of-day discounts or the unused Directory Assistance allowance will not be applied against these charges.
9. If, as a result of an interrupt, the line is cleared, and at the calling party's request, the operator completes the call, the applicable operator assistance charges, and/or calling card message charges apply in addition to the interrupt charges.
10. The verify charge will not apply if the number verified is not in use and the operator completes the call. Applicable operator assistance charges apply.

LINE / TRUNK HUNTING SERVICE ARRANGEMENTS
STANDARD HUNTING SERVICE
BUSY VERIFICATION/INTERRUPT SERVICE

CONDITIONS (Cont')

11. No verification or interrupt charge will apply if the requesting customer identifies that the call is from an authorized Public Emergency Agency. An authorized Public Emergency Agency is defined as a government agency which is operated by the Federal, State or local government and has the capability and legal authority to provide prompt aid to the public in emergency situations.
12. No charge will apply when the operator encounters a trouble condition or has reason to believe a trouble condition exists.
13. Requests which originate from stations equipped with CUSTOMNET Call Screening will be completed and billed subject to applicable screening restrictions in addition to the terms and conditions specified herein.
14. Verification and interrupt service is furnished to coin and non-coin customers.
15. Person-to-Person service is not offered.

Initial Installation	-
Subsequent Installation On Same Line	\$13.50

CONDITIONS

Long Distance Message

1. Long Distance Message Restriction - Local Exchange Service is an arrangement which permits Local Exchange Service line users to dial local service area calls but prevents the origination of long distance calls.
2. Long Distance Message Restriction - Local Exchange Service is provided for use only on individual network access line service and only where the customer has other network access line service on the same premises arranged for unrestricted use of the telecommunications network.
3. The acceptance of collect call messages is not restricted by this arrangement.

Blocking For 10XXX1+/10XXX011+

1. Blocking for 10XXX1+ / 10XXX011+ prevents 10XXX1+ and 1 0XXX011+ calls from being completed. Blocked calls will be routed to an announcement.
2. Blocking Service is offered subject to the availability of existing central office facilities.
3. Provision of 10XXX1 + / 10XXX011 + Blocking does not alleviate customer responsibility for completed toll calls.
4. Other Toll Restrictions type services are available to customer subscribing to 10XXX1+ / 10XXX011 + Blocking.

Customnet Service

1. CUSTOMNET Service provides toll access screening options which allow a customer to restrict the classes of chargeable calls originating over some or all of their lines.
CUSTOMNET Service enables a customer by means of Company operator identification, to provide toll access by restricting (0/0+) outgoing toll calls to only those calls which are charged to the called telephone (collect), a third number and/or calling card.

MESSAGE RESTRICTION (Cont'd)

CONDITIONS (Cont'd)

Customnet Service

2. Two options, described below, are available with CUSTOMNET Service:

Option 1

All local and non-chargeable calls, e.g., calls to 800/800-type service numbers, and calls to Company numbers such as repair and public emergency service numbers (such as 911) will be permitted. Calls dialed 1 +, including calls to Directory Assistance, will not be permitted. Calls dialed 0/0+ to Directory Assistance will be permitted if alternate billing is provided.

Option 2

All local calls, nonchargeable calls and calls dialed 1+ will be permitted. With this option, the customer assumes responsibility for all calls dialed 1 +.

- 3 Customnet is offered subject to the availability of mechanized operator type services and existing CO facilities. The provision of this service may require some customers to change their existing telephone number.
4. The Company reserves the right to restrict the screening classes or combinations of classes to standard arrangements.
5. Long Distance Message Restriction cannot be applied to lines or trunks using CUSTOMNET Service.

Pay Per Call Restriction

1. Description

Pay Per Call Restriction prevents calls made from individual residence and business access lines from reaching information services (for example, those reached by dialing 900).

2. Regulations

Pay Per Call Restriction is offered subject to the availability of existing CO facilities to:

Single Party Service
PBX Trunk

Message Restriction is available only to customers who are served from a central office equipped to provide such services.

BASIC EMERGENCY 911 SERVICE

DESCRIPTION

1. 911 Emergency Communications System Service (911 Service) is a telephone exchange service whereby a Public Safety Answering point (PSAP) designated by the customer may receive calls signaled to the telephone number 911. The service provides the capability to answer emergency calls originated by persons within the serving area who dial 911.
2. 911 Service provides for routing 911 calls originated by telephone with given central office prefix codes to a single PSAP via the switched network to dedicated or nondedicated access lines. The choice of the service arrangement is the customer, subject to availability of facilities.
3. The 911 Code feature permits the public to dial 911 and have the central office route the call to the PSAP.
4. The dedicated access line option provides a circuit from the originating end office to the PSAP. The following optional features are available where operating conditions permit:

Forced Disconnect

Enables a PSAP attendant to terminate, at any time, an existing 911 call regardless of the action of the calling party. Forced disconnect prevents the dedicated facilities (lines or trunks) to the PSAP from being tied up by calling parties who remain off-hook. After the PSAP attendant releases from a 911 call, the dedicated 911 trunk or line facility to the PSAP is automatically released and made available for other 911 calls. Forced disconnect may be used to disconnect any established 911 call connection to a PSAP.

Idle Tone

A reorder tone at 120 IPM is a tone that is given to alert the Public Safety Answering Point (PSAP) attendance that the originating party has gone off-hook after the 911 call was established to the Company but before the PSAP attendant answered the phone. This feature allows the PSAP attendant to distinguish between calls that are abandoned before they are answered and calls where the calling party is unable to speak for some reason.

Switchhook Status

This is a feature which automatically provides a visual indication of the switchhook status of the originating station after the PSAP attendant answers the call. It provides the visual indications, in connection with the customer's terminal equipment, to allow the PSAP attendant to know whether a 911 call put on hold is still on hold or has disconnected. Additionally, a control circuit is required in connection with the customer provided visual lamp indicator.

BASIC EMERGENCY 911 SERVICE (Cont'd)

DESCRIPTION (Cont'd)

Called Party Hold

Allows the PSAP attendant to hold the connection established for a station from which a 911 call was originated, regardless of calling party actions. Called party hold enables the call to be traced to determine the calling party location. Actions by the calling party will not affect the connection being held. The connection is held until the PSAP attendant releases the call or until trunk time-out. Activation of ringback will restart the timing.

Emergency Ringback

Allows the PSAP attendant to ring back a calling station whether the station is on or off hook.

5. Features other than those described in 4. preceding, may be provided on an individual case basis.
6. The non-dedicated access line option forwards the call from an originating end office over the message network to the Public Safety Answering Point (PSAP). No additional features are available with this option.
7. ANI is being provided where facilities are available.

DEFINITIONS

911 Service Area

The geographical area that contains the service central office and originating end offices in which the 911 customer will have the capability to respond to all 911 calls and initiate appropriate responses.

Avoidance

Provides the routing of a facility to avoid a customer specified geographic area.

Called Party Hold (CPH)

A feature of 911 Service that enables a Public Safety Answering Point (PSAP) attendant to retain control of an incoming 911 call connection even if the calling party hangs up.

Customer Location

Location of the primary Public Safety Answering Point.

Issued Date: December 5, 2016

Advice Letter: ID-16-01

BASIC EMERGENCY 911 SERVICE (Cont'd)

DESCRIPTION (Cont'd)

Diversity

Provides separate facility paths to avoid routing all of a customer's traffic through a single transmission facility.

Emergency Ringback

A feature that allows the PSAP attendant to call or ring the line of an incoming 911 call that appears to have gone on-hook (hungup). CPH is required for this feature.

Forced Disconnect

A feature that allows the PSAP attendant to release a connection regardless of the action of the calling party. This prevents blockage of the incoming 911 lines service the PSAP.

Idle Tone Application

A feature that allows the PSAP attendant to distinguish between calls abandoned before they are answered and instances in which the calling party is unable to speak for some reason, the call is abandoned, a distinct tone is heard. If the caller is still on the line but unable to speak, no tone is heard.

Meet Point

A predetermined point in the provision of a circuit, between two or more operating companies i.e., where the Company provides a portion of the facilities to a point and another telephone company continues in order to provide end-to-end service to a customer.

Originating End Office

A central office that serves the caller originating a 911 call.

Public Safety Answering Point (PSAP)

An answering location of 911 calls originated within a given service area. PSAPs are designated as primary and secondary. The primary PSAP receives all calls directly from the public; secondary PSAPs only receive calls from a primary PSAP on a transfer or relay basis.

Serving Central Office

The central office from which a primary PSAP is served.

BASIC EMERGENCY 911 SERVICE (Cont'd)

DEFINITIONS

Switchhook Status

A feature that provides the PSAP attendant audible and visual signals indicating whether a 911 call put on hold is still on hold or has disconnected.

REGULATIONS

1. The 911 customer may be a municipality or other state or local government unit, or an authorized agent of one or more of these units. The customer must be legally authorized to subscribe to the service and respond to public emergency calls from the central office service areas arranged for 911 calling.
2. If Company facilities are not available to provide 911 service, modifications may be made to our facilities as necessary on an individual case basis. The actual cost of these modifications will be charged to the customer in addition to the published rates.
3. In a dedicated access line arrangement, the customer will be required to purchase exchange lines from the originating end office to the Public Safety Answering Point (PSAP) and when necessary, applicable mileage rates from the originating end office to the service central office, to allow the direct routing of end office calls over those lines.

For the non-dedicated access line option, the customer must purchase exchange lines from the serving central office, as noted below, for receipt of calls forwarded from each remote end office.

- A. A combination of dedicated and non-dedicated lines may be provided to one PSAP, operating conditions permitting, but only one option is available per originating end office.
- B. The customer must subscribe to enough lines at the PSAP to receive 911 calls on lines other than its administrative lines. In no case shall there be less than two 911 lines per originating end office.
4. The mileage rates per mile apply to the airline distance measured between the service wirecenter through which the service is provided. The airline miles between serving wire centers are measured using the V and H coordinates method, as set forth in the Exchange Carrier Association Tariff F.C.C. No. 4.
5. All general rules and regulations contained in other tariff/catalog sections of this Company apply, as appropriate, to the provision of 911 Emergency Service.

BASIC EMERGENCY 911 SERVICE (Cont'd)

REGULATIONS (Cont'd)

6. 911 are the only digits which may be used as an abbreviated emergency telephone number.
7. the 911 emergency telephone number may not be used as a replacement for general telephone service. The public safety agencies will subscribe to other exchange service as provided in other tariff/catalog Sections of this Company to satisfy telecommunicating needs other than receipt of 911 calls.
8. The service is furnished to the customer for the purpose of receiving reports of emergencies from the public.
9. 911 Service is classified as business service and is arranged for one-way incoming service to the appropriate PSAP.
10. 911 Service is provided solely for the benefit of the customer operating the Public Safety Answering Point (PSAP). The provision of 911 Service by the Company shall not be interpreted, construed, or regarded, either expressly or implied, as being the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
11. 911 service will not be suspended or disconnected for non-payment without a ninety day written notification to the customer, the company, and the State of Idaho Executive Department, Emergency Management Division.
12. The Company will furnish facilities to enable the customer's personnel to respond to 911 calls, but will not answer and forward those calls.
13. The rates and charges for 911 Service include only the usual inspection or monitoring of facilities, which are done on a routine basis, to discover errors, defects and malfunctions in the service.

The customer shall make such operational tests as, in the judgment of the customer are required to determine whether the system is functioning properly for its specific use. The customer shall promptly notify the Company in the event the system is not functioning properly. Any additional testing requested by the customer will be handled and priced on an individual case basis.

BASIC EMERGENCY 911 SERVICE (Cont'd)

REGULATIONS (Cont'd)

14. In any central office where 911 Service has been activated, the Company will provide the same level of reliability and quality as it provides for all other telephone services in that central office.
15. The customer will be responsible for making arrangements to handle all 911 calls that originate from telephones served by originating end offices in the 911 service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
16. Application for 911 Service must be executed in writing by each customer. In addition the customer must submit a copy of the State of Idaho approved Emergency Telephone System Plan. If application for service is made by an agency, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer.
17. The customer must furnish the Company its agreement in writing to the following terms and conditions:
 - (A) All 911 calls will be answered on a twenty-four hour day, seven-day week basis.
 - (B) The customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 service area, or will undertake to transfer all dispatching such services, to the extent that such services are reasonably available.
 - (C) The customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the Public Safety Answering Point (PSAP) by calling parties. Furthermore, a written assurance is required from all agencies indicating their concurrence in the arrangement.
 - (D) The customer will subscribe to local exchange service, and where necessary, private line service, at the PSAP location for administrative purposes, for placing outgoing calls, for transferring or dispatching 911 calls, and for receiving all other calls.
 - (E) The customer will maintain an adequate number of circuits to handle the traffic volume.

BASIC EMERGENCY 911 SERVICE (Cont'd)

REGULATIONS (Cont'd)

18. The calling party will not be charged for calls placed to the 911 number. Any appropriate toll charges associated with 911 calls will be billed to the 911 customer.
19. Neither the calling party nor the 911 customer is billed for message unit charges associated with measured service or calls placed from a coin phone.
20. It is the customer's obligation to assure that any customer provided terminal equipment is compatible with 911 service and features.
21. The Company may refuse to provide certain features if, in the Company's judgment, they are not compatible with the customer's terminal equipment.
22. Trunk conditioning charges may apply under certain circumstances. For example, if there is a Public Safety Answering Point (PSAP) installed to back up the primary PSAP, the charges could apply, on an individual case basis.
23. Where facilities permit, the customer can request diversification and redundancy, of any or all interoffice and/or local loop facility routes. Additional charges for such facilities, or the construction and provisioning thereof, will be the responsibility of the customer and will be assessed on an Individual Case Basis.
24. Where facilities permit, the customer may request avoidance of any point in the interoffice facilities and/or local loop facilities and/or the central offices service that 911 system. Additional charges for such facilities, or the construction and provisioning thereof, will be the responsibility of the customer and will be assessed on an Individual Case Basis.
25. Basic Emergency 911 Services are available only to customers who are served from a central office equipped to provide such services.

SUSPENSION OF SERVICE

RATES

	<u>Nonrecurring Charges</u>
Per Number Suspended	
Residence	\$20.00
Business	\$25.50
Per Number Restored	
Residence	\$20.00
Business	\$25.00

* Suspension of All Service (SUS)

1. Suspension of the entire service of a customer is intended to meet the needs of those customers who desire to suspend their telephone service temporarily because they, and those whose use of the service is contemplated under the customer's application for service, are to be absent from the premises, but who wish to retain their directory listings, and have the other benefits of suspension.
2. Service will be disconnected to the extent necessary to assure that no inward or outward service will be available during the period of suspension.
3. The suspension rate is applicable to all suspended facilities of the customer, whether the service consists of one or more exchange lines and as specified below:
 - a. In connection with exchange access lines on separate premises, the suspension rate will be applicable to the service on each premises separately. Extension line mileage charges, will be included in computing the suspension rate.
 - b. In connection with customer service and semi-public service, the suspension rate will be applicable to the customer service and to each semi-public service separately.
 - c. In connection with trunks from different exchanges or two or more exchange access lines served from different exchanges, the suspension rate will be applicable to the service furnished from each exchange separately.
4. In connection with suspension of all service, the suspension rate will not be applicable unless service is retained on suspension for one month or more.

* Will only be offered to existing customers. SUS is being grandfathered and will not be offered to new customers or those customers that discontinue the service. Reserve number only will be offered to new customers and those that discontinued the SUS service.

Missoula, MT 59808

Advice Letter: ID-16-01

SUSPENSION OF SERVICE (Cont'd)

* Suspension of All Service (SUS) (Cont'd)

5. The suspension rate is applied as follows:
 - a. For semi-public telephone service, the rate is 50 percent of the regular monthly rate and the rates for other services and facilities. The charge for local messages is not affected.
 - b. For all other suspended services, the rate is 50 percent of the regular exchange service and the rates for other services and facilities.
6. In connection with message rate service, the call allowance and the additional local message rate is not affected since calls might be made on the day service is suspended or restored.

Suspension of A Portion of Service

1. Suspension of a portion of services is intended to meet the needs of those customers who desire to have a portion of their telephone service facilities suspended but who wish to retain the remainder of their service facilities on a non-suspended basis. Under this type of suspension the facilities suspended will be physically disconnected to the extent necessary to prevent use but left in place on the customer's premises.
2. In connection with suspension of a portion of service, the suspension rate will not be applicable unless the service or facility is retained on suspension for two months or more.
3. The suspension rate is equal to 50 percent of the regular rates for the exchange services or facilities reserved. Regular exchange rates are applicable to the service and facilities which are continued in service.

* Will only be offered to existing customers. SUS is being grandfathered and will not be offered to new customers or those customers that discontinue the service. Reserve number only will be offered to new customers and those that discontinued the SUS service.
