SECTION 1: REGULATIONS1.1 Undertaking of the Company1.1.1 Scope

The Company undertakes to furnish communications service in connection with one-way and/or two-way information transmission between points within the State of Idaho under the terms of tariff. The Company's services are available to business customers.

Customers may use services and facilities provided under this tariff to obtain access to services offered by other service providers. The Company is responsible under this tariff only for the service and facilities provided herein, and it assumes no responsibility for any service provided by any other entity that purchases access to the Company network in order to originate or terminate its own services, or to communicate with its own Customers.

1.1.2 Shortage of Equipment and Facilities

1.1.2.1 The Company reserves the right to limit or allocate the use of existing facilities, or of additional facilities offered by the Company when necessary because of lack of facilities or due to some other cause beyond the Company's control.

1.1.2.2 The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers, from time to time, to furnish service as required at the sole discretion of the Company.

1.1.3 Terms and Conditions

1.1.3.1 Except as otherwise provided herein, service is provided and billed on the basis of a minimum period of at least one month, and shall continue to be provided until canceled by the Customer, in writing, on not less than 30 days' notice. Unless otherwise specified herein, for the purpose of computing charges in this tariff, a month is considered to have 30 days. All calculations of dates set forth in this tariff shall be based on calendar days, unless otherwise specified herein.

1.1.3.2 Customers may be required to enter into written Service Orders which shall contain or reference the name of the Customer, a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff.

---

SECTION 1: REGULATIONS1.1 Undertaking of the Company (continued)1.1.3 Terms and Conditions (continued)

- 1.1.3.3 At the expiration of the initial term specified in the applicable Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current tariff rates until terminated by either party upon 30 days' written notice. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the Service Order shall survive such termination.
- 1.1.3.4 This tariff shall be interpreted and governed by the laws of the State of Idaho without regard for the State's choice of laws provisions.
- 1.1.3.5 Another telephone company must not interfere with the right of any person or entity to obtain service directly from the Company.
- 1.1.3.6 The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business.
- 1.1.3.7 The Customer agrees to operate Company provided equipment in accordance with instructions of the Company or the Company's agent. Failure to do so will void Company liability for interruption of service and may make the Customer responsible for damage to equipment pursuant to Section 1.1.3.8 below. The Company is not liable for interruption of service due to any failure of Customer premises equipment provided by the Company or the Customer.
- 1.1.3.8 The Customer agrees to return to the Company all Company provided equipment delivered to Customer within five (5) days of termination of the service in connection with which the equipment was used. Said equipment shall be in the same condition as when delivered to Customer, normal wear and tear only excepted. SECTION 1: REGULATIONS1.1 Undertaking of the Company (continued)1.1.4 Notification of Service-Affecting Activities

The Company will provide the Customer reasonable notification of service affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements and routine preventive maintenance. Generally, such activities are not specific to an individual Customer but affect many Customers' services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the Customer to determine the reasonable notifications requirements. With some emergency or unplanned service affecting conditions, such as outage resulting from cable damage, notification to the Customer may not be possible.

1.2 Liability of the Company

1.2.1 The Company shall not be liable for claim or loss, expense or damage (including indirect, special or consequential damage) for any interruption, delay, error, omission, or defect in any service, facility (including services and facilities involved in emergency calling activity) or transmission provided under this tariff, if caused by any person or entity other than the Company, by any malfunction of any service or facility provided by any other carrier, by an act of God, fire, war, civil disturbance, or act of government, or by any other causes beyond the Company's direct control.

1.2.2 The Company shall not be liable for, and shall be fully indemnified and held harmless by Customer and Subscriber against any claim or loss, expense, or damage (including indirect, special or consequential damage) for defamation, libel, slander, invasion, infringement of copyright or patent, unauthorized use of any trademark, tradename or service mark, unfair competition, interference with or misappropriation or violation of any contract, proprietary or creative right, or any other injury to any person, property or entity arising out of the material, data, information, or other conduct revealed to, transmitted by, or used by the Company under this tariff; or for any act or omission of the Customer or Subscriber; or for any personal injury or death of any person caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, presence, use, or removal of equipment or wiring provided by the Company, if not caused by negligence of the Company.

---

SECTION 1: REGULATIONS1.2 Liability of the Company (continued)

- 1.2.3 The Company shall not be liable for any defacement of or damages to the premises of a Customer or Subscriber, resulting from the furnishing of service, which is not the result of the Company's negligence.
- 1.2.4 Except when a court of competent jurisdiction finds that gross negligence, willful neglect, or willful misconduct on the Company's part has been a contributing factor, the liability of the Company for any claim or loss, expense or damage (including indirect, special or consequential damage) for any interruption, delay, error, omission, or defect in any service, facility (including services and facilities involved in emergency calling activity) or transmission provided under this tariff shall not exceed an amount equivalent to the prorata charge to the Customer or Subscriber for the period of service or facility usage during which such interruption, delay, error, omission or defect occurs. For the purpose of computing this amount, a month is considered to have thirty (30) days.
- 1.2.5 The included tariff language does not constitute a determination by the Commission that a limitation of liability imposed by the Company should be upheld in a court of law. Acceptance for filing by the Commission recognizes that it is a court's responsibility to adjudicate negligence and consequential damage claims. It is also the court's responsibility to determine the validity of the exculpatory clause.

SECTION 1: REGULATIONS1.5 Establishment of Service (continued)1.5.2 Minimum Contract Periods

1.5.2.1 Except as otherwise provided, the minimum contract period is one month for all services furnished. However, if a new single line business Customer notifies the Company within twenty days after receipt of the first bill that certain services or equipment are not desired, the Company will delete such services or equipment from the Customer's account without a record keeping or service ordering charge. The Customer nonetheless shall be responsible for all monthly usage and installation charges incurred for the use of such service and equipment.

1.5.2.2 Except as provided in 1.5.2.1 preceding, the length of minimum contract period for directory listings, and for joint user service where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is first distributed to the Customers to the day the succeeding directory is first distributed to Customers.

1.5.2.3 The Company may require a minimum contract period longer than one month at the same location in connection with special (non-standard) types or arrangements of equipment, or for unusual construction, necessary to meet special demands and involving extra costs.

1.5.3 Cancellation of Application for Service Prior to Establishment of Service

1.5.3.1 Where the Company cancels an order for service prior to the start of installation or special construction of facilities, no charge applies, except to the extent Company incurs a service order or similar charge from a supplying carrier prior to the cancellation.

1.5.3.2 Where installation of facilities, other than those provided by special construction, has been started prior to the cancellation, the lower of the following charge applies:

- A. The total costs (including overheads) in connection with providing and removing such facilities.
- B. The monthly charges for the entire initial contract period of the service ordered by the Customer as provided in this tariff plus the full amount of any installation and termination charges applicable.

1.5.3.3 Where special construction of facilities has been started prior to cancellation and there is another requirement for the specially constructed facilities, in place, no charge applies.

---

SECTION 1: REGULATIONS1.5 Establishment of Service (continued)1.5.3 Cancellation of Application for Service Prior to Establishment of Service (continued)

1.5.3.4 Where special construction of facilities has been started prior to the cancellation, and there is no other requirement for the specially constructed facilities, a charge equal to the costs incurred in the special construction (including overheads) applies. Where one or more, but not all, of the services involved in the special construction are canceled, a charge equal to the cost (including overheads) incurred for the discontinued service applies.

1.5.3.5 Installation or special construction of facilities for a Customer starts when the Company incurs any expense in connection therewith which would not otherwise have been incurred and the Customer has advised the Company to proceed with the installation or special construction.

1.5.4 Establishing Credit

1.5.4.1 The Company, in order to assure the payment of its charges for service, will require applicants and Customers to establish and maintain acceptable credit.

1.5.4.2 The establishment or re-establishment of acceptable credit as provided in this section shall not relieve the applicant or Customer from compliance with other provisions of this tariff as to advance payments and the payment of bills, and shall in no way modify the provisions regarding disconnection and termination of service for failure to pay bills due for service furnished.

1.5.4.3 Applicants for Service

The Company may refuse to furnish service to an applicant that has not established acceptable credit or has not paid charges for service of the same classification previously furnished by the Company or another carrier at the same or another address, until arrangements suitable to the Company have been made to pay such charges.

The Company may also refuse to furnish service to an applicant that has not paid charges for service of the same classification, previously furnished by any telephone company at the same or another address, until arrangements suitable to the Company are made.

---

SECTION 1: REGULATIONS1.5 Establishment of Service (continued)1.5.4 Establishing Credit (continued)1.5.4.3 Applicants for Service (continued)

- (1) Service applicants may establish credit in one of the following ways:
  - a. Responding in a manner satisfactory to the Company to a set of standard questions, known as the Credit Evaluation Process (CEP). The applicant may be required to provide proof in support of these responses. The written procedures for the CEP are available for public inspection at the Company's main office at 222 S Riverside Plaza, Suite 2730; Chicago, IL 60606.
  - b. Intentionally Omitted.
  - c. Providing a sufficient written guarantee of payment for service by a guarantor satisfactory to the Company. The guarantee shall be made in a letter that is substantially similar to the form in 1.5.4.5 below.
  - d. Providing a surety bond, provided that such surety bond has been issued by an insurance company that is satisfactory to the Company.
- (2) Business service applicants may establish credit by meeting the requirements of the Company's Business Credit Evaluation Plan of (1) b. or (1) d. preceding.
- (3) During the verification of an applicant's credit, the Company will permit service to be installed upon the advance payment by the applicant of an amount equal to applicable service charges and initial non-recurring charges applicable for service installation plus the estimated amount of the applicant's bill based upon one month's service. Such advance payment will be credited to the applicant's service account but does not relieve the applicant of his responsibility to subsequently establish credit in accordance with (1) or (2) preceding.

If credit is not so established, the Company may disconnect the service no sooner than five days after delivery or eight days after mailing of written notice of intention to disconnect.

When a Customer's service has been disconnected in accordance with the above, service will not be reconnected until the Customer has established credit.
- (4) Advance Payments only apply to business customers.

1.7.5 The suspension or discontinuance of service(s) by the Company pursuant to this section does not relieve the Customer of any obligation to pay the Company for charges due and owing for service(s) furnished during the time of or up to suspension or discontinuance.

1.7.6 Upon the Company's discontinuance of service to the Customer under this Section, all applicable charges, including termination charges, shall become due. This is in addition to all other remedies that may be available to the Company at law or in equity or under any provision of this tariff.

1.8.2 Cancellation of Service by the Customer

If a Customer cancels a Service Order or terminates services before the completion of the term for any reason whatsoever other than a service interruption (as defined in 1.10 below), Customer agrees to pay to Company the following sums which shall become due and owing as of the effective date of the cancellation or termination and be payable within the period set forth in 1.6, all costs, fees and expenses incurred in connection with:

- (1) all Non-Recurring charges reasonably expended by Company to establish service to Customer, plus
- (2) any disconnection, early cancellation or termination charges reasonable incurred and paid to third parties by Company on behalf of Customer, plus
- (3) all Recurring Charges specified in the applicable Service Order tariff for the balance of the then current term, and
- (4) any termination liability for early termination.

1.9 Miscellaneous1.9.1 Special Conditions or Requirements

Where special conditions or special requirements of a Customer involve unusual construction or installation cost, the Customer may be required to pay a reasonable proportion of such costs.

---

SECTION 1: REGULATIONS1.9 Miscellaneous (continued)1.9.2 Telephone Numbers

The Customer shall provide employees and agents of the Company access to Company facilities, at all reasonable times, for the purpose of installing, rearranging, repairing, maintaining, inspecting, disconnecting, removing, or otherwise servicing such facilities.

1.9.4 Installation, Rearrangement, Repair Maintenance, Disconnection, and Removal of Facilities

All facilities furnished by the Company will be installed and maintained by it, except where such facilities are situated, in the judgment of the Company, in hazardous or inaccessible locations.

1.9.5 Transfer and Assignments

Customer may not assign or transfer its rights or duties in connection with the services and facilities provided by the Company without the written consent of the Company and payment of the applicable charges.

1.9.6 Notices and Communications

1.9.6.1 The Customer shall designate on the Service Order an address to which the Company shall mail or deliver all notices and other communications, except that Customer may also designate a separate address to which the Company's bills for service shall be mailed.

1.9.6.2 The Company shall designate on the Service Order an address to which the Customer shall mail or deliver all notices and other communications, except that Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.

---

SECTION 1: REGULATIONS1.9 Miscellaneous (continued)1.9.6 Notices and Communications (continued)

1.9.6.3 All notices or other communications required to be given pursuant to this tariff will be in writing. Notices and other communications of either party, and all bills mailed by the Company, shall be presumed to have been delivered to the other party on the third business day following deposit of the notice, communication or bill with the U.S. Mail or a private delivery service, prepaid and properly addressed, or when actually received or refused by the addressee, whichever occurs first.

1.9.6.4 The Company or the Customer shall advise the other party of any changes to the addresses designated for notices, other communications or billing, by following the procedures for giving notice set forth herein.

1.10 Allowances for Interruptions of Service1.10.1 Credit for Interruptions

When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 12 hours or more from the time the interruption is reported to or known to exist by the Company, except as otherwise specified in the Company's tariffs. If the Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly Recurring Charges specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Service outages between 12 and 24 hours in duration shall receive a credit for 24 hours. Credit allowances for service outages that exceed 24 hours in duration will be calculated as a 30-day credit pursuant to Idaho Rule 503.

SECTION 1: REGULATIONS1.10 Allowances for Interruptions of Service (continued)1.10.2 Restrictions on Allowance

No credit allowance will be made for:

- (a) interruptions due to the negligence or willful act of the Customer, Authorized-User or Joint-User, including but not limited to noncompliance with the provisions of this tariff.
- (b) interruptions due to the failure or malfunction of Customer provided facilities or the failure or malfunction of any other non-Company equipment;
- (c) interruptions due to electric power failure where the Customer furnishes such electric power;
- (d) interruptions of service during any period in which the Company is not given full and free access to its facilities and equipment for the purpose of investigating and correcting interruptions;

- (f) interruptions of service during any period when the Customer has released service to the Company for maintenance purposes or for implementation of a Customer order for a change in service arrangements;
- (g) interruption of service due to circumstances or causes beyond the control of the Company.

1.10.3 Use of Alternative Service Provided by the Company

Should the Customer elect to use an alternative service provided by the Company during the period that a service is interrupted, the Customer must pay the tariffed rates and charges for the alternative service.

---

SECTION 2: SERVICES2.1 Application of Rates2.1.1 Introduction

The regulations set forth in this section govern the application of rates for services contained in other sections of this tariff. An application for service, whether made orally, in writing, or by use of service, establishes a contract between the Company and the Customer pursuant to the terms and conditions included within this tariff. Neither the contract nor any rights acquired hereunder may be assigned or in any manner transferred to a third party by the Customer, without the Company's written approval.

2.1.2 Charges Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- (a) Calls are measured in durational increments identified for each service. All calls held for a fraction of a measurement increment are rounded-up to the next whole measurement unit.
- (b) Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). Timing for operator service person-to-person calls starts with completion of the connection to the person called or an acceptable substitute, or to the PBX station called.
- (c) Timing terminates on all calls when the calling party hangs up or the Company's network receives an off hook signal from the terminating carrier.
- (d) Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call and will be billed according to applicable eastern standard or eastern daylight savings time.

SECTION 2: SERVICES2.1 Application of Rates (continued)2.1.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

Distance between two points is measured as airline distance between the rate centers of the originating and terminating telephone lines. The rate center is a set of geographic coordinates, as referenced in the Local Exchange Routing Guide issued by Iconectiv (formerly Telcorida), associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated 800 or WATS access line), the Company will apply the rate center of the Customer's main billing telephone number.

The airline distance between any two rate centers is determined as follows:

- (a) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above referenced Iconectiv document.
- (b) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
- (c) Square each difference obtained in step (b) above.
- (d) Add the square of the "V" difference and the square of the "H" difference obtained in step (c) above.
- (e) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
- (f) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
- (g) FORMULA

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 2: SERVICES2.2 Service Area

The Company's Local Usage Service Area adopts the local calling areas of incumbent local exchange carriers as defined in its tariffs on file with the IDPUC.

2.3 Connection Charges2.3.1 General

The Connection Charge is a nonrecurring charge which applies to the following: (a) the installation of a new service; (b) the transfer of an existing service to a different location; (c) a change from one class of service to another at the same or a different location; or (d) restoral of service after suspension or termination for nonpayment. Connection Charges are listed with each service to which they apply.

2.3.2 Exceptions to the Charge

- A. No charge applies for a change to a service for which a lower monthly rate applies, made within 90 days after any general rate increase, if a lower grade of service is offered in the customer's exchange.
- B. The Company may from time to time waive or reduce the charge as part of a promotion.

2.4 Restoral Charge

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service.

Business  
\$25.00

SECTION 2: SERVICES2.5 Moves, Adds and Changes

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.
