On July 18, 2001, Avista Corporation dba Avista Utilities—Washington Water Power Division (Idaho) filed an Application for authority to implement an electric Schedule 66 Power Cost Adjustment (PCA) surcharge. The Company proposes a 14.7% surcharge for an effective date of September 15, 2001. The proposed surcharge will be in addition to an existing 4.8% surcharge which is scheduled to expire January 31, 2002. The Company is proposing that both surcharges remain in place until December 31, 2003. The incremental increase of 14.7% will result in a total surcharge in effect under Schedule 66 of 19.4% (\$23.6 million). To further reduce the deferred power cost balance, the Company is proposing to accelerate amortization of the credit balance related to the recent monetization of a Portland General Electric (PGE) sale agreement.

Pursuant to prior Commission Notice, a public hearing in this case was scheduled to take place on September 12 (13), 2001 in Coeur d’Alene, Idaho.

YOU ARE HEREBY NOTIFIED that because of September 11, 2001 events in this country and related restrictions on travel, the Commission finds it necessary to cancel the September 12 (13) Coeur d’Alene hearing in Case No. AVU-E-01-11.

In consideration of the foregoing and as more particularly described above, IT IS HEREBY ORDERED and the Commission does hereby vacate the September 12 (13) hearing in Case No. AVU-E-01-11.
