**Date:** Friday, September 11, 2020 6:16:22 PM

---

Dear Idaho Public Utilities Commission:

I am an Idaho Power customer and I support clean energy because we need to do all we can to improve our Idaho economy, reduce climate change, conserve present resources and provide new jobs!

Our state's unique geography and climate provide us with an excellent opportunity to take advantage of CUSTOMER PROVIDED SOLAR POWER.

Our state's predictably consistent growth means new construction projects provide thousands of possibilities for integrated rooftop solar installations that could economically integrate solar panels in their designs.

This clean energy source could help Idaho Power and result in construction work for local businesses and workers.

IDAHO desperately needs an UPDATED POWER PLAN, with help from IDAHO POWER, to meet our common LONG TERM NEEDS!

Regards,  
Bill Robison
