**Date:** Tuesday, December 29, 2020 6:27:43 PM

---

Dear Idaho Public Utilities Commission:

I am an Idaho Power customer and I support clean energy. I believe it is our duty to help keep rising climate temperatures to a minimum and to protect Idahoans' and our country's citizens' air quality and health.

To elaborate a bit more, I am concerned about climate change and want to reduce our use of fossil fuels like coal and gas. Idaho Power should not spend money on gas and should instead invest in local Idaho resources. I support Idaho Power's clean energy transition and want them to accelerate this change in Idaho.

Please take a careful look at our communities' long-term health and safety when you are making plans and decisions for the utility company's energy sources and new resources for the next 20 years.

Regards,  
Laura Theis
