| Eighteenth Revision Sheet 155 | canceling | Seventeenth Revision Sheet 155 |

The Company requests that the proposed tariff sheets be made effective November 1, 2016.

These tariff sheets reflect the Company's annual Purchased Gas Cost Adjustment ("PGA"). If approved, the Company's annual revenue will *decrease* by approximately \$6.1 million or approximately 7.8%. The proposed changes have no effect on the Company's earnings. Detailed information related to the Company's request is included in the attached Application and supporting workpapers.

If the Company's request is approved, a residential or small commercial customer using an average of 61 therms per month will see *decrease* of \$4.65 per month, or approximately 8.4%. The present bill for 61 therms is \$55.59 while the proposed bill is \$50.94. The Company will issue a notice to its customers through a bill insert starting on or about September 2, 2016 and ending on or about October 1, 2016. A copy of the bill insert has been included in the Company's filing.

III.

The Applicant is a public utility engaged in the distribution of natural gas in certain portions of Northern Idaho, Eastern and Central Washington, and Southwestern and Northeastern Oregon, and further engaged in the generation, transmission, and distribution of electricity in Northern Idaho and Eastern Washington.

IV.

Twenty-Second Revision Sheet 150, which Applicant requests the Commission approve, is filed herewith as Exhibit "A". Additionally, Eighteenth Revision Sheet 155, which Applicant requests the Commission approve, is also filed herewith as Exhibit "A". Also included in Exhibit "A" is a copy of Twenty-Second Revision Sheet 150 and Eighteenth Revision Tariff Sheet 155 with the changes underlined and a copy of Twenty-First Revision Sheet 150 and Seventeenth Revision Tariff Sheet 155 with the proposed changes shown by lining over the current language or rates.

V.

The existing rates and charges for natural gas service on file with the Commission and designated as Applicant's Tariff IPUC No. 27, which will be superseded by the rates and charges filed herewith, are incorporated herein as though fully attached hereto.

VI.

Notice to the Public of Applicant's proposed tariffs is to be given simultaneously with the filing of this Application by posting, at each of the Company's district offices in Idaho, a Notice in the form attached hereto as Exhibit "B" and by means of a press release distributed to various informational agencies, a draft copy attached hereto in Exhibit "E". In addition, Exhibit "E" to this Application also contains the form of customer notice that the Company will send to its customers in its monthly bills starting on or about September 2, 2016 and will end on or about October 1, 2016.

VII.

The circumstances and conditions relied on for approval of Applicant's revised rates are as follows: Applicant purchases natural gas for customer usage and transports it over Williams Northwest Pipeline, Gas Transmission Northwest (GTN), TransCanada - Alberta, TransCanada - BC and Spectra Energy Pipeline systems, and defers the effect of timing differences due to implementation of rate changes and differences between Applicant's actual weighted average cost of gas ("WACOG") purchased and the WACOG embedded in rates. Applicant also defers various pipeline refunds or charges and miscellaneous revenue received from natural gas related transactions including pipeline capacity releases.

VIII.

This filing reflects the Company's proposed annual PGA to: 1) pass through changes in the estimated cost of natural gas for the November 2016 through October 2017 twelve-month period (Schedule 150),

and 2) revise the amortization rate(s) to refund or collect the balance of deferred gas costs (Schedule 155). Below is a table summarizing the proposed changes reflected in this filing.¹

| | | Commodity | Demand | Total | Amortization | Total Rate | Overall |
|----------------|------------|------------------|------------------|---------------|------------------|------------------|---------------|
| | Sch. | Change | Change | Sch. 150 | Change | Change | Percent |

| Lg. General | 111 | \$ (0.01140) | \$ 0.00480 | \$ (0.00660) | \$ (0.06958) | \$ (0.07618) | -7.7% |
| Interruptible | 131 | \$ (0.01140) | \$ - | \$ (0.01140) | \$ (0.07202) | \$ (0.08342) | 0.0% |

IX.

Commodity Costs

As shown in the table above, the estimated WACOG change is a *decrease* of 1.14 cents per therm. The proposed WACOG, including the revenue conversion factor, is 24.06 cents per therm compared to the present WACOG of 25.2 cents per therm included in rates. The overall reduction in the WACOG is generally the result of the continued increase in natural gas supply coupled with an overall reduction in customer demand due to a warmer than normal winter of 2015-2016, resulting in lower wholesale natural gas prices. The downward pressure on wholesale prices has continued even after the winter period due to the abundance of natural gas in storage and continued high natural gas production levels.

The Company's natural gas Procurement Plan ("Plan") uses a diversified approach to procure natural gas for the coming PGA year. While the Plan generally incorporates a more structured approach for the hedging portion of the portfolio, the Company exercises flexibility and discretion in all areas of the plan based on changes in the wholesale market. The Company typically meets with Commission Staff semi-annually to discuss the state of the wholesale market and the status of the Company's Plan. In addition, the Company communicates with Staff when it believes it makes sense to deviate from its Plan and/or opportunities arise in the market.

Avista has been hedging natural gas on both a periodic and discretionary basis throughout 2015-2016 for the forthcoming PGA year (twelve months). Approximately 45% of estimated annual load requirements for the PGA year (November 2016 through October 2017) will be hedged at a fixed-price derived from the Company's Plan. These volumes are comprised of: 1) volumes hedged for a term of one year or less, 2) volumes from prior multi-year hedges. Through June, the planned hedge volumes for the PGA year have been executed at a weighted average price of \$2.60 per dekatherm (\$0.26 per therm).

The Company used a 30-day historical average of forward prices and supply basins (ending July 15, 2016) to develop an estimated cost associated with index purchases. The estimated monthly volumes to be purchased by basin are multiplied by the 30-day average forward price for the corresponding month and basin. These index purchases represent approximately 55% of estimated annual load requirements for the coming year. The annual weighted average price for these volumes is \$2.44 per dekatherm (\$0.24 per therm).

¹ The overall percentage change for all schedules is a decrease of 7.8%. Customers on Schedules 112 and 132 receive either a one-time rebate or surcharge rather than participate in the Schedule 155 amortization. The amount rebated to customers on these schedules totaled \$81,784 for an overall proposed revenue decrease of \$6,119,167. The overall present billed revenue is \$78,661,797 making the percentage decrease 7.8% ($-\$6,119,167 / 78,661,797 = -7.8\%$).

X.

Demand Costs

Demand costs primarily represent the cost of transporting natural gas on interstate pipelines to the Company's local distribution system. As shown in the table above, there is a slight increase in the overall demand rate of \$0.00480 per therm for Schedules 101 and 111 which is, in part, related to the reduction in Northwest Pipeline capacity release revenue Avista had been receiving.

XI.

Schedule 155 / Amortization Rate Change

As shown in the table above, the proposed amortization rate change for Schedule 101 and Schedule 111 is a rate decrease of \$0.06958 per therm. The current rate applicable to Schedule 101 and Schedule 111 is \$0.02886 per therm in the rebate direction; the proposed rate is \$0.09844 per therm also in the rebate direction. Contributing to the proposed amortization rebate rate, as discussed in the Commodity Cost Section of this Application, are the effects of wholesale natural gas prices that were lower than the level approved in the Company's 2015 PGA. As a result of the lower prices, the amount of revenue collected from customers exceeded the Company's costs. However, a portion of the benefit of reduced wholesale natural gas prices was offset by an under collection of fixed demand costs which was the result of a warmer than normal winter.

XII.

If approved as filed, the Company's annual revenue will *decrease* by approximately \$6.1 million or about 7.8% effective November 1, 2016. Residential or small commercial customers using an average of 61 therms per month would see a *decrease* of \$4.65 per month, or approximately 8.4%. The present bill for 61 therms is \$55.59 while the proposed bill is \$50.94.

XIII.

Exhibit "C" attached hereto contains support workpapers for the rates proposed by Applicant contained in Exhibit "A".

XIV.

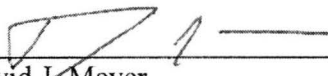

Avista requests that the rates proposed in this filing be approved to become effective on November 1, 2016, and requests that the matter be processed under the Commission's Modified Procedure rules through the use of written comments. Avista stands ready for immediate consideration on its Application.

XV.

WHEREFORE, Avista requests the Commission issue its Order finding its proposed rates to be just, reasonable, and nondiscriminatory and to become effective for all natural gas service on and after November 1, 2016.

Notice of Public Applicant’s Proposed Tariffs

August 26, 2016

AVISTA UTILITIES
NOTICE OF IDAHO TARIFF CHANGE
(Natural Gas Service Only)

Notice is hereby given that the "Sheets" listed below of Tariff IPUC No. 27, covering natural gas service applicable to Idaho customers of Avista Utilities have been filed with the Idaho Public Utilities Commission (IPUC) in Boise, Idaho.

| | | |
|---|-----------|--|
| Twenty-Second Revision Sheet 150 | canceling | Twenty-First Revision Sheet 150 |
| Eighteenth Revision Sheet 155 | canceling | Seventeenth Revision Sheet 155 |

Eighteenth Revision Sheet 155 updates the amortization rate used to refund or recover previous gas cost differences and Twentieth Revision Sheet 150 updates the forward-looking cost of natural gas purchased for customer usage.

These tariffs request an annual revenue *decrease* of approximately \$6.1 million, or about 7.8%. This filing requests an effective date of November 1, 2016.

PGAs are filed each year to balance the actual cost of wholesale natural gas purchased by Avista to serve customers with the amount included in rates. This includes the natural gas commodity cost as well as the cost to transport natural gas on interstate pipelines to Avista's local distribution system. If the request is approved, Avista residential customers using an average of 61 therms a month could expect their bill to decrease by \$4.65, or 8.36 percent, for a revised monthly bill of \$50.94 beginning Nov. 1, 2016. Avista's natural gas revenues would decrease by \$6.1 million, or approximately 7.8 percent. The requested natural gas rate change by customer segment is as follows:

| | |
|--|-------|
| General Service - Firm - Schedule 101 - Residential & Small Commercial | -7.7% |
| Large General Service - Firm - Schedules - Commercial 111 & 112 | -7.7% |
| High Annual Load Factor Large - Interruptible Service Schedules 132 | -0.0% |

Avista does not mark up the cost of natural gas purchased to meet customer needs, so the filing does not increase or decrease company earnings.

The Company's application is a proposal, subject to public review and a Commission decision. Copies of the application are available for public review at the offices of both the Commission and Avista, and on the Commission's homepage (www.puc.idaho.gov). Customers may file with the Commission written comments related to the Company's filing. STATEMENT OF EFFECTIVE RATES AND CHARGES
 FOR TRANSPORTATION OF NATURAL GAS

Notes:

- (a) The mileage component shall be applied per pipeline mile to gas transported by GTN for delivery to shipper based on the primary receipt and delivery points in Shipper's contract. Consult GTN's system map in Section 3 for receipt and delivery point and milepost designations.
- (b) The non-mileage component is applied per Shipper's MDQ at Primary Point(s) of Delivery on Mainline Facilities.
- (c) The delivery rates are applied per pipeline mile to gas transported by GTN for delivery to shipper based on distance of gas transported. Consult GTN's system map in Section 3 for receipt and delivery point and milepost designations.
- (d) Fuel Use: Shipper shall furnish gas used for compressor station fuel, line loss, and other utility purposes, plus other unaccounted-for gas used in the operation of GTN's combined pipeline system in an amount equal to the sum of the current fuel and line loss percentage and the fuel and line loss percentage surcharge in accordance with Section 6.38 of this tariff, multiplied by the distance in pipeline miles transported from the receipt point to the delivery point multiplied by the transportation quantities of gas received from Shipper under these rate schedules. The current fuel and line loss percentage shall be adjusted each month between the maximum rate of 0.0050% per Dth per pipeline mile and the minimum rate of 0.0000% per Dth per mile. The fuel and line loss percentage surcharge is 0.0000% per Dth per pipeline mile. No fuel use charges will be assessed for backhaul service. Currently effective fuel charges may be found on GTN's Internet website under "Informational Postings."
- (e) Seasonal recourse rates apply to short-term firm (STF) service under Rate Schedule FTS-1 (i.e., firm service that has a term of less than one year and that does not include multiple-year seasonal service) and IT Service under Rate Schedule ITS-1. By March 1 of each year GTN may designate up to four (4) months as peak months during a twelve-month period beginning on June 1 of the same year through May 31 of the following year. All other months will be considered off-peak months. Reservation rate components that apply to STF service and per-unit-rate IT service are as follows (delivery charges and applicable surcharges continue to apply):

Avista Requests Natural Gas Price Decrease in Idaho

Annual price adjustment would take effect Nov. 1, 2016

SPOKANE, Wash. Aug. 29, 2015, 1:05 p.m. PST: Avista (NYSE: AVA) customers in Idaho could see an overall 7.8 percent decrease in their natural gas rates on Nov. 1, 2016 if the Idaho Public Utilities Commission (IPUC or Commission) approves the company's annual Purchased Gas Cost Adjustment (PGA) filed today.

If the request is approved, Avista residential customers using an average of 61 therms a month could expect their bill to decrease by \$4.65, or 8.4 percent, for a revised monthly bill of \$50.94 beginning Nov. 1, 2016. Avista's natural gas revenues would decrease by \$6.1 million. Avista does not mark up the cost of natural gas purchased to meet customer needs, so the filing does not increase or decrease company earnings.

The requested natural gas rate change by customer segment is as follows:

| | |
|--|-------|
| General Service - Firm - Schedule 101 - Residential & Small Commercial | -7.7% |
| Large General Service - Firm – Schedules 111 & 112 - Commercial | -7.7% |

PGAs are filed each year to balance the actual cost of wholesale natural gas purchased by Avista to serve customers with the amount included in rates. This includes the natural gas commodity cost as well as the cost to transport natural gas on interstate pipelines to Avista's local distribution system. The primary driver for the company's requested decrease is a reduction in natural gas commodity costs due to a warmer than normal winter, an abundance of natural gas held in storage, and continued high production levels of natural gas.

About 50 percent of an Avista natural gas customer's bill is the combined cost of purchasing natural gas on the wholesale market and transporting it to Avista's system. These costs fluctuate up and down based on market prices. The costs are not marked up by Avista. The remaining 50 percent covers the cost of delivering the natural gas -- the equipment and people needed to provide safe and reliable service.

Rate Application Procedure

Important Notice for Idaho Natural Gas Customers

(Sept. 2016)

Proposed Natural Gas Rate Adjustment Filed to be Effective Nov. 1, 2016

Avista has filed its annual Purchased Gas Cost Adjustment (PGA) request with the Idaho Public Utilities Commission (Commission), with a requested effective date of Nov. 1, 2016. This includes the natural gas commodity cost as well as the cost to transport natural gas on interstate pipelines to Avista's local distribution system.

The proposed PGA would decrease natural gas rates by an overall 7.8 percent and Avista's natural gas revenues by \$6.1 million. If the request is approved, Avista residential customers using an average of 61 therms a month could expect their bill to decrease by \$4.65, or 8.4 percent, for a revised monthly bill of \$50.94 beginning Nov. 1, 2016.
