Name of Utility Company: AVISTA

Comment: My husband and I oppose this sale; it is unconstitutional for Avista to sell their utility to a foreign company and to turn over their dams and all infrastructure to a questionable group in a country we are not a part of. We need more time to bring forward testimony exposing the questionable practices of this company and it's unknown membership.

Subject: Avista Sale to Canadian Company

Hello,

Is this sale a done deal or can it still be stopped? I am not sure why Idaho would allow this sale to go through if it has the chance/power to stop it. It seems like a bad idea to give up control of our power utility to another country that might take care of their own citizens before Idaho and Washington customers. I can see I am late responding on this issue but hopefully there is still time to reconsider. Is there any more public comment on the issue? I have been an Avista customer since it was still WWP and do not want to see this company sold to a foreign entity.

Thanks for any help you can provide,

Tim L Taylor
