2.3.2 OBLIGATION TO FURNISH SERVICE

- A. Facilities and lines furnished by or through the Company on the premises of a customer, authorized user or agent of the customer are the property of the Company and are provided upon the condition that such facilities and lines must be installed, relocated, rearranged and maintained by the Company, and that the Company's employees and agents may enter said premises at any reasonable hour to test and inspect such facilities and lines in connection with such purposes, or upon termination or cancellation of the service, to remove such facilities and lines.
- B. The Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights and facilities, and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.
- C. The Company's obligation to furnish service or to continue to furnish service is dependent on the customer's prompt payment record with the Company and its actual payments for existing service. For a new customer, it is based on credit worthiness, which will be determined in an equitable and nondiscriminatory manner.
- D. **Resold services provided pursuant to contract may be priced according to the referenced rates in effect in the underlying carrier's effective tariffs as of the date the Company begins providing such service(s). These rates will only apply through the contract expiration date and may not be renewed.**

2.3 ESTABLISHING AND FURNISHING SERVICE (Cont'd)

2.3.5 SPECIAL SERVICES

A. Work On Customer's Premises

It is contemplated that all work on customers' premises can be performed during regular working hours. If a customer requests that work be performed during hours which results in overtime or premium rates of pay, a charge may apply in addition to other rates and charges which may be applicable, based on the amount of overtime or premium time required, as determined on an individual case basis.

It is also contemplated that all installation, removals, service connections, moves and changes requested by a customer be performed without the Company incurring unusual costs. If a customer requests that work be performed in a special manner or at a special time which results in unusual costs, a charge equal to the amount of unusual costs may apply in addition to other applicable rates and charges, as determined on an individual case basis.

B. Special Arrangements

1. The rates and charges quoted in this Catalog contemplate the use of standard arrangements, that is, the arrangement normally used by the Company to provide the type of service involved.
2. For special service arrangements to be provided by this Company, and not specifically covered in this Catalog, including but not limited to services, features, and combinations of services and features not normally offered or combined, monthly rates and the one-time charges, such as installation, nonrecurring and construction charges will apply based on the circumstances in each case.
3. These special equipment and service items will be provided whenever, in the judgment of the Company, there is a valid reason for providing the service requested. In such cases, the Company reserves the right to require an initial contract period longer than one (1) month at the same location.
4. The rates, terms and conditions for these Special Arrangements offerings will be established on an individual case basis.

C. Special Promotions

The Company may, from time to time, offer promotional programs for its services which may include waiving or reducing the applicable rates and charges for the promoted service. The promotional offerings may be limited as to the duration, the date, and times of the offerings and the locations where the offerings are made or other reasonable limitations. The Company may also offer incentives, benefits or gifts to customers to encourage the purchase or retention of any such service or product.

D. Trials

The Company may offer, from time to time, limited trials for services which may include the waiving or reducing of all rates and charges for the service that is the subject of the trial and for services that are provided as part of the trial. Trials will be intended to test new potential services or new marketing approaches for services. The location, duration, date and times of a trial may be limited by the Company. The Company may terminate such trials in its reasonable discretion.

E. Individual Case Basis

In lieu of the rates otherwise set forth in this Catalog, rates and charges including installation, special construction and recurring charges for Company services may be established at negotiated rates on an ICB, taking into account the nature of the facilities and services, the costs of construction and operation, and the length of service commitment by the customer. Such arrangements shall be considered special pricing arrangements, the terms of which will be set forth in individual contracts. Special pricing arrangement rates or charges will be made available to similarly situated customers on equal terms and conditions.

2.3.6 TERMINATION OF SERVICE

A. Initial Service Periods

1. The initial service period for service and facilities is one month (30 days), except as otherwise specified.
2. Initial service periods for service or facilities of any class will be greater than those specified herein whenever that is required in order for the Company to protect itself from making an unwarranted investment because the customer's location or the character of the service required is such that upon termination of the customer's contract the facilities which have been constructed or installed to render the service are not likely to be useful for furnishing service to any other customer.
3. Service may be terminated prior to the expiration of the initial service period upon payment of all charges due for service which has been furnished plus the termination charges as specified in this Catalog, or in the terms of the service agreement. In the case of service for which the initial period is one month, the charges due are for the balance of the month.

B. Termination Liability/Waiver Policy

Services provided via service agreements may include the Termination Liability/Waiver Policy. This policy applies only to services that specifically reference this Termination Liability/Waiver Policy as described in the Catalog.

1. Minimum Billing Level will be established for use in calculating discontinuance charges. The Minimum Billing Level is 100% percent of the total monthly rates for the service provided under the terms of the customer's service agreement, unless otherwise specified.
2. Minimum Service Period is the period of time that the factor of the Termination Liability Charge would apply.

2.3.6 TERMINATION OF SERVICE

B. Termination Liability/Waiver Policy (Cont'd)

3. If the customer chooses to completely discontinue service, at any time during the term of the agreement, a termination charge will apply, unless the customer satisfies the conditions specified in the Waiver Policy. The termination charge is 100% of the rates for the Minimum Service Period, if applicable, plus the Minimum Billing Level multiplied by the termination liability percentage of 50% or the rate specified in the service agreement, for the remaining term of the agreement.[1]
4. If the customer discontinues a portion of their service, and that causes the customer's monthly billing level to fall below the Minimum Billing Level of the agreement, a termination charge will apply to the portion of the service agreement that is below the Minimum Billing Level.
5. Waiver Policy

A termination charge will be waived when the customer discontinues their contracted service(s), provided all of the following conditions are met:

- The customer signs a new service agreement for any other Company provided service(s);
- Both the existing and the new service(s) are provided solely by the Company;
- The order to discontinue the existing service(s) and the order to establish the new service(s) are received by the Company at the same time;
- The new service(s) installation must be completed within thirty calendar days of the disconnection of the old service(s), unless the installation delay is caused by the Company;

[1] For example: Customer disconnecting in month 12 of a 36 month agreement with MRC of \$100. Termination charge is \$100 (minimum billing level) x 24 months (minimum service period) x 50% (Termination Liability Percentage) = \$1,200.

1. On-Net to On-Net is an arrangement where both ends of the service originate in buildings using facilities that are provisioned by the Company. This service is provided at speeds of 1.544 Mbps (DS1), 44.736 Mbps (DS3), 155.52 Mbps (OC3), 622.08 Mbps (OC12) and 2.488 Gbps (OC48).

Concatenated OC3C, OC12C and OC48C are also offered. Concatenated services are not multiplexed or channelized. The entire bandwidth of the service is available to the customer for maximum transmission throughput.

2. On-Net to Off-Net is an arrangement where service is provisioned using a combination of On-Net facilities provided by the Company, and facilities that are owned and operated by a third party provider, which is considered Off-Net. The Company will order Off-Net facilities on the customer's behalf. This arrangement is provided for DS1 through OC12 only.

C. Rate Elements

1. Mileage

Mileage provides for the transmission facilities between two customer POTs. Mileage is comprised of a fixed rate element and a per mile rate element. Mileage is measured by airline miles between the customer's Points of Termination (POT), using the V & H Coordinates method.

2. Multiplexing

Multiplexing provides the ability to convert a higher speed channel to several lower speed channels, or to combine several lower speed channels into a single higher speed channel. Multiplexing is offered to On-Net to On-Net customers only. The multiplexing hierarchy is as follows:

- DS3 channelizes to 28 DS1s
- OC3 channelizes to 3 DS3s
- OC12 channelizes to 4 OC3s
- OC48 channelizes to 4 OC12s

There are two types of multiplexing:

- Customer premises multiplexing, where the signal will be dropped to a lower bandwidth to different areas of a building, or
- Vendor multiplexing, that occurs in the carrier POT and gives the vendor different speed signals.

3. Node

The Node provides for the communication path between a customer's designated premises and the POT to the Company network. A Node element applies per service, e.g. DS1 or DS3 terminated at the customer's premises.

7.1.2 METRO OPTICAL ETHERNET

A. Description

Metro Optical Ethernet (MOE) Service is a flexible, easy-to-use, transport service that uses established Ethernet transport technology. MOE allows customers to connect multiple enterprise locations within a service area using native Ethernet protocol. MOE supports transmission speeds as low as 5 Mbps and up to 1 Gbps. The minimum term is one year.

B. Rate Elements

1. MOE Port

MOE Port is an Ethernet port that is the physical entry point to the shared Metro Optical Ethernet Network. Ethernet Virtual Circuits (EVCs) originate and terminate on a MOE Port. Customers may choose to connect to a 10/100 or 1,000 Mbps port on the Company network. A nonrecurring charge applies per MOE Port.

2. Bandwidth Profile

The Bandwidth Profile is bandwidth provisioned over the MOE Port and a monthly rate is assessed per Bandwidth Profile. Customers may subscribe to one of the following:

- 10/100 Mbps Ports: 5 Mbps, 10 Mbps, 20 Mbps, 30 Mbps, 40 Mbps, 50 Mbps, 60 Mbps, 70 Mbps, 80 Mbps, 90 Mbps and 100 Mbps
- 1,000 Mbps Ports: 100 Mbps, 150 Mbps, 200 Mbps, 300 Mbps, 400 Mbps, 500 Mbps, 600 Mbps, 700 Mbps, 800 Mbps, 900 Mbps and 1,000 Mbps

C. Rates and Charges

Rates and Charges for MOE will be developed on an Individual Case Basis (ICB) arrangement in response to a bona fide request for service from a customer or prospective customer. ICB rates will be offered to customers in writing and will be made available to similarly situated customers.
