IDAHO PUBLIC
UTILITIES COMMISSION

BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IN THE MATTER OF THE APPLICATION) CASE NO. CAP-W-09-01
OF CAPITOL WATER CORP. TO)
ESTABLISH A NEW TARIFF RATE TO) APPLICATION
RECOVER PURCHASED POWER COSTS)

COMES NOW Capitol Water Corporation (“Capitol, “Applicant” or “Company”), holder of Certificate of Convenience and Necessity Number 239 and files this Application to establish a new tariff rate to recover the Company’s cost of electricity related to Idaho Power Company’s Rate Schedule No. 55 “Power Cost Adjustment”.

Each year, Idaho Power Company adjusts its Schedule No. 55 to recognize the change in costs of producing or purchasing power for its customers. Currently, Idaho Power has an application before the Idaho Public Utilities Commission (Commission) in Case No. IPC-E-09-11 to increase its PCA rate on June 1, 2009 from 0.7864 cents per KWh to 1.4717 cents per KWh, an increase of 0.6853 cents per KWh.

By Order No. 30762 in Case No. CAP-W-08-02 the Commission adopted a three (3) year average of electricity consumption to establish rates for Applicant. The average annual consumption used in that order was 1,454,401 KWh. This average electric consumption when multiplied by the Idaho Power Co. increase proposed in its PCA rate produces an increase in cost to Applicant of \$9,967.01 or a 13.02% increase in electric power costs.

Applicant expects its costs to review the Idaho Power Company case, determine its effect on Applicant and prepare and file this application to be \$500. Applicant proposes to include these costs together with the electric power increased costs for

recovery over a one (1) year period. Applicant proposes to add a new provision to its Tariff Schedule No. 3 (Other Recurring and Non-recurring Charges) for a period of one (1) year commencing July 1, 2009 to collect total revenue in the amount of \$10,467 (\$9,967 + \$500). This increase in revenues represents 1.675% of the total revenue requirement authorized by Order No. 30762. Applicant will in each subsequent year, review the Idaho Power Company PCA applications and make its own appropriate applications to the Commission to pass through any increases or decreases in electric power costs to customers. Applicant proposes an effective date of July 1 rather than the June 1 proposed effective date of Idaho Power Company's rate change. Applicant will not experience the increase in cost until bills from Idaho Power Company for service in June are received and paid in July.

Enclosed is a copy of the Company's current approved Schedule No. 3 in legislative format that shows the addition of the new "Purchased Power Cost Adjustment" provision under the "Recurring Charges" section of the schedule.

Also enclosed is a new Schedule No. 3 for the Commission's approval with an effective date of July 1, 2009.

Capitol Water Corporation is informing its customers of this application through a customer notice that will be included with customer bills to be mailed May 1, 2009 and by a news release that is being sent to the Idaho Statesman and the Idaho Business Review newspapers coincident with this filing. Copies of the customer notice and news release are enclosed.

CONTACT INFORMATION:

Questions regarding this Application should be addressed to:
