Name of Utility Company: Eagle Water

Comment: Please do not approve the sale of Eagle water to Suez. Suez has a long and consistent reputation of very poor quality, customer service while being significantly higher priced than standard utilities. An outside entity should not have control over a resource as important as water. Please consider voting against the sale of Eagle Water to Suez. Thanks, in advance.

Comment: I am very much against the selling of Eagle Water to Suez Water. Against due to 1) their reasons for hiking the rates (poor customer service, poor online experience, poor service reliability and poor water quality). None of these issues were known to any of the Eagle residents. I have, apparently, been living with these issues for 20 years and never realized it. 2) the quality of water that Suez controls in other areas sounds pretty bad. Many have commented on Next Door Neighbor the poor quality they have experienced with Suez. Thank you for your consideration, Lisa Grover

Comment: I am not at all happy to find that Eagle Water is being sold to Suez Water. All that have weighed in on this sale are stating that our water bills will increase over 200%. How can that be when we are using the exact same water amounts we are using now but that same usage is going to cost so much more. I really don't care that we will be able to "pay on line" instead of mailing a payment to Eagle Water. Please reconsider this sale, talk with the consumer we need a solid reason our bills would increase by 200% ie. is the water better are we getting better customer service or is this just a way for another large corporation to pad their pockets by not caring what their customer wants? What are we as the customer getting?? beside just an astronomical bill.

Comment: I am writing as a concerned citizen of the city of Eagle Idaho. It has been brought to our attention that Suez is attempting to purchase Eagle water. In Eagle we have great tasting low cost water. Our friends that are served by Suez has bills that are 3 or 4 times greater than what we pay, and have water that in my opinion not nearly as clean tasting as what we get. Please do not allow this purchase to take place. Thank you Patrick Goolsby

Comment: I implore the Idaho Public Utilities Commission not to approve the purchase of the Eagle Water Company by Suez. A large percentage of Eagle Water customers are retired and living on fixed incomes. Despite the information that Suez has submitted on their application, we know from other Suez customers that our costs for water usage are going to be considerably higher than what they are saying, possibly up to 8 to 10 times what we are currently paying. We cannot afford such huge increases for water usage and know that the dilemma we face will fall on deaf ears when it comes to Suez. We have always hoped that the City of Eagle would at some point purchase Eagle Water because, under that circumstance, our rates would probably increase but certainly to nowhere near the extent that Suez will do so. Please let the citizens of Eagle know what can be done to prevent this sale. Thank you.

Comment: I just heard that Suez is buying Eagle Water Company and plans to raise rates more than 200%! This is absolutely ridiculous. How is this possible? Eagle Water Company has been great. They are easy to work with and have always provided great service. I am also concerned with what Suez will do with our water. Do they have the right to pump it elsewhere in the valley or are they required to only use the wells for the current customers? Also, what are they going to put in our water? Currently, our water isn't treated with anything and it is GREAT! We have the healthiest and best water in the entire valley which is one of the reasons we chose to buy in Eagle. What are the changes that City of Eagle could buy Eagle Water Company instead?

Comment: I received notification that Suez wants to acquire Eagle Water Company. I have major concerns with this acquisition. I used to live in area served by Suez water.. did not like smell of chlorine and prices were extremely high. When I moved to my current address and served by Eagle Water, I was so happy to find out my monthly expenses would be more affordable and water quality is wonderful. I am a senior on a fixed income and it would be a hardship to have my expenses increased. I do not understand why prices would increase just to improve 'customer service'..there is nothing wrong with current service and water quality is better than what I experienced with Suez. It would be a shame if changes were made to a service that needs no improvement..which may only result in the degrading of a currently great service.
