Name of Utility Company: Eagle Water Company

Comment: As an Eagle Water user for the past 3 years, I am concerned with the Suez purchase of the eagle water company. I moved from Meridian Idaho to my current location in Eagle, during my research we found that areas of east Boise, Garden City and Eagle serviced by other water companies have much higher rates. the low rates and great service from Eagle Water Company was one of the factors in purchasing this house. In researching this takeover, I have seen multiple complaints from Suez users in the Boise region about taste, smell and look of the water provided by Suez. From the information about the merger I have found available, my current 8 to 9\$ winter, and 20 to 25\$ summer water bills will increase by 300% in the next 2 years, after staying about the same for the past 3 years. A 300% increase in my existing water bill is not acceptable just to fund to pockets of Suez and its shareholders. Eagle Water company already provides excellent customer service, and according to what I could find, the water system is already monitored 24 hours a day.

I strongly encourage the PUC to deny or make significant adjustments to this request and to keep in mind the users/consumers of this water resource. As a consumer, the low water cost in this area definitely affected my choice to move to this neighborhood, and now with no input from me, and no choice of providers, I am about to have my costs increased 300% just to satisfy the corporate greed of a national water system provider, when the small local one already provided excellent service at a great price.

Thank you for your time, and I encourage you to keep consumers in mind when reviewing this decision.

Name of Utility Company: Eagle Water Company Contacted Utility: No

Complaint: I understand that the Suez Water company is planning to purchase the Eagle Water Company. Having heard of complaints from other customers regarding the poor quality of the water and the high cost with Suez Water Company.

I respectfully request that you would not allow the business be sold to them. I have been completely satisfied with the water, cost and service from Eagle Water Company. And am very hopeful that you will consider my opinion regarding this matter.

Comment: I have heard recently that Eagle Water Company is planning to sell to a larger company. I am very concerned about an increase in utility costs associated with this sale.
